HOME STATE BANK

ERIE, KANSAS

January 21, 1938.

Dr. F. C. Allen,
Lawrence, Kansas.

My dear Phog:

I have definitely made arrangements with Coach Ralph Wilson, to bring his basket ball team, from Erie High School up to the Nebraska game. So please lay aside or better I will ask Sidney to stop by and get 15 tickets, and he will pay for same.

I figure this will give the boys a thrill, and good advertsiement for K.U. and The Home State Bank.

Your boys did better at Columbia, thank goodness.

I am sorry that I didn't come on up that Sunday. Have beem improving but not right yet. Two months ago I slipped on the top step and scooted down on my right elbow and the small of my back. Pretty sore but got all right. Then in two weeks while exercising something slipped. This osteopath here says it is where the flat hip bone joins the vertibrae, throws my left hip high. He got it all right. But same thing happened two weeks ago on the golf course, on just an easy swing. It is improving and he says it will get O.K. He treated it, and I have applied a lot of heat, but I am not just satisfied. If it don't get better I will be driving up.

The hip seems to be straightening up and I can sit and walk all right again, but still sore. He tells me nothing is broken, or I would holler when he works on me, so has discourgged me on having it X Rayed.

Junior and young Larry Doyle will be home Tuesday and have challenged the Seniors to Golf, but think I can hold up my own against those kids with a #5 iron and a putter.

Business keeps me tied down to the desk here every day like a dairy farm, just hard to get away. But that is what we want, enough to keep me busy and the boy in school.

Fraternally yours,

Sidney S. Linskott
