

November 26, 1937.

Mr. Robert Lynn,
Kerlyn Oil Company,
Oklahoma City, Okla.

Dear Bob:

I just ran across Jimmie Brazil and he tells me that he stopped by to see Dean McGee with your firm, but he was unable to contact him because he was out in the field.

Bob, I would appreciate it very much if you would personally see that Jimmie hooks up with the right liaison so far as contacting McGee is concerned. Jimmie tells me he stopped in three times and failed to make connections with Dean.

You doubtless remember Jimmie Brazil as a varsity football and basketball letter man here at the University. He played here in 1930-'31-'32. He spent two years in South America with the Gulf Oil Company.

I hope to see you when I come to Oklahoma City with the varsity basketball team on February 18. We will stop at our usual place, the Kingcade, because it is always handy to the railway station.

Bob, I hope you are going great guns down there. I am very sure you are, because I have never seen you strike out yet.

I am sending this note to you by Jimmie Brazil as he expects to run down to Oklahoma City in the next few days. I will appreciate any courtesy and kindness that you may show Jimmie.

With every good wish, I am

Fraternally yours,

FCA:AH

Director of Physical Education.
