

February 9, 1940.

Professor W. J. Baumgartner,
Department of Zoology,
University of Kansas.

Dear Professor Baumgartner:

Thank you very much for sending me the publication of the Chicago Alumni Council, which I am returning to you.

John R. Tunis stopped and visited in our home when he was writing this article, "What Price Football", reprinted by the Alumni Council. I have the copy of the American Mercury containing the article, and read it with much interest.

Much of that Tunis knows for a fact, or he wouldn't print it. Some of these schools are notorious for their chicanery. What I said at Kiwanis Club had some authentic background, and my contacts have been with men like Tunis who have told me personally of some of the revelations.

Thank you for sending this to me.

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
