

March 28, 1946

Mr. Robert F. Mines  
Mount Royal College  
Calgary, Alberta

Dear Mr. Mines:

Your letter to the President of the University of Kansas has been referred to me for answer.

I am disappointed to state that at present we are fully staffed in the Department of Physical Education for this term and, as far as I know, at this time, we will be so staffed for the 1946-1947 term. I might add, that if you are still interested in a position at this university you might write sometime at a later date, say perhaps early summer, requesting this position. It is possible that there might be some changes in the department by then.

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
