Dear Dr. Allen:

In Belgium

I received the envelope of  
rebouder the other day and thank  
a million for sending them, as you  
might realize the greatest thing we  
can get is a few words from home.  
We are well fed & clothed so all we  
lack is news.

We get to listen to the World Series  
which comes here around eleven at  
night - we think St Louis will win.

We are close enough now to spit over  
into Germany - in fact part of our outfit  
are there now.

The sun is shining to-day - the first we  
have seen in a long time - it's very damp  
& disagreeable here I guess this time of  
year - This particular country is very pretty  
In fact I saw the cleanest towns here  
that I have seen since I left N.Y. over a  
year ago.

I got to see Paris the other day. Nothing  
unusual - lots of fine clothes - they are hungry  
& Crane Cigarettes - a carton of Camels can be  
sold for 20 to 40 dollars
