

November 13, 1943.

Mr. Louis Menze,
Basketball Coach,
Iowa State College,
Ames, Iowa.

Dear Louie:

I find that I have failed to answer your good letter. Just want you to know that after you expressed yourself as you did regarding Kansas State I was in favor of going along one hundred per cent with you.

Mike sent us some dates that he wanted and we changed our schedule with some service teams so that we gave him the dates he desired. He wrote: "Thanks very much for your successful efforts to arrange a basketball date with us at Lawrence on January 18th. We feel that the directors of the Big Six and the basketball coaches have been very considerate in holding basketball dates for K-State."

I think it is nice of Mike to show his appreciation for your and other coaches cooperation.

By the way, Louie, I am sending you one of our Jayhawk Rebounds, No. 5. Each month I get this out to the boys. I do not know whether you or the boys at Iowa State are doing anything like this, but it is something I like to do that keeps our boys informed as to the others' whereabouts. When you were so kind to say the nice things you did about Eleanor it occurred to me that I would send you this and you could get the dope on the Allen family.

Our love to Mattie and best regards to Bob and Keith.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
