

July 22, 1943.

Capt. R. C. Moore,
3635 R Street, N. W.,
Washington, D. C.

Dear Captain Ray:

Mrs. Edith Lewis of the Geological Survey Office, just brought in your original sketch for my inspection, together with a copy of the sketch for my use.

I want you to know that I feel deeply honored. Our long friendship and association is further enhanced. I did not know that you had this skill added to your many accomplishments. Your versatilities continue to amaze me. I shall retain this copy with much pride and appreciation, and will always associate this effort of yours with our many pleasant contacts.

Your sketch certainly adds animation to an old man's physiognomy and as I look at it, it looks almost as if the subject could speak. But maybe you better not let him because he talks too much.

We are hoping this god-darned war will be over before 1945, but I am afraid it won't. Anyway, we want you to return so that we can keep alive the many personal pleasantries that we have always enjoyed.

I am enclosing a copy of the Jayhawk Rebounds that we send out monthly to our boys in the service. It is rather lengthy, but I thought you might like to scan it. I am doing this to keep the interests of the boys hooked up with the University.

Please give my kindest regards to your good wife, and always know that I have enjoyed your friendship. With all good wishes,
I am

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
