Dear Doc.

Excuse this scribbling, but I wanted to get this letter to you before you started for the east. I was in Philadelphia last week and saw Iba's boys play St. Joseph. Bobby and I scouted them both together and talked the game over. For that reason I imagine he will give you most of the information I have to offer. I might be able to add a little anyway.

I shall dwell upon St. Joseph for now because you play them first. I shall write you again on Iba when I have more time.
