

Sept. 27, 1941

Mr. Harry W. Mons
Vice-president Hill-Clarke Machinery Co.
Chicago, Ill.

Dear Mr. Mons

Thank you for your good letter of the 25 instant.
I have not received the invoice for the golf clubs
but as soon as I do I will mail you the bill.

I am writing Spauldings a letter this morning asking
why you have not received the golf clubs.

I am glad, however, that your normalizer has been
received and that you are doing good work with it.
The price is correct, \$10, no doubt you will get an
invoice before long.

I took your letter home to let Mrs. Allen read it and
she got a great kick out of it. She said if I didn't
look out I would have Mr. Mons on one of my athletic
teams.

I really got a great kick out of reading about Jane's
fingernails. If there is anything that has pained me
for years it has been those long fingernails with the
bright red polish. I called Jane "The Tiger Woman",
but in reality they looked like eagle claws painted a
bright hue. But now she has her own home and her in-
terest is not in her adornment but in her home, so she
has found she couldn't be quite so efficient with those
long fingernails as she could be if they were short.
She has done what all girls should do when home interests
are uppermost.

I have always been very proud of Jane with her sensible
attitude and when it came time for her to do the thing
that was both expedient and efficient she did it.

The Allen's send kindest regards to the Mons' and our
love to the youngsters.

Sincerely yours,

Director of Physical Education and Recreation
Varsity Basketball Coach
