

more than twice as many boys as we have had from large schools. We have had more boys from small schools than we have had from large high schools. I can assure you that we have had more boys from small schools than we have had from large high schools. So you can assure Donald that we would be glad to have him, and we will give him work as we promised him. The Co-op House effects a definite saving and we will welcome him here at the University. We have a fine school of Physical Education and I know that he will be pleased to be here. I assure you we will be pleased to have Donald as he has been very highly recommended by his teachers and coaches.

With all good wishes, I am sure you will do more for him than I do for him. He deserves it.

Sincerely yours,
