Dr. Forrest C. Allen, Director,
Physical Education Department
The University of Kansas
Lawrence, Kansas

Dear Doctor:

Congratulations to you for the recent trouncing which our boys handed Oklahoma!! I felt that you would give them a good defeat, but not by such a decisive margin.

It was very gratifying to me in view of the fact that by some manner or means one of our Kansas boys is playing for them. You know, O. U. played either Loyola or DePaul a few weeks ago here in Chicago. This boy Tucker received many fine remarks, although Oklahoma lost the game. Nothing was said, however, about where or how he came from. Incidentally, I enjoyed the article in the Chicago Tribune January 10th in which you reviewed Oklahoma's beckoning of out of state athletes. It was very good and quite timely.

From being in your classes, I believe that I pretty well understand your attitude on such things and I am glad that some one has had the courage to speak out. One thing is certain, your season will be successful, win or lose. We always know which team the opposition fears most.

I got hold of DePaul's schedule a few days ago, and I discovered that on January 31 that K. U. will play. Last year when you were in Chicago I had to work. However, I am eagerly looking forward to seeing this game.

I am still working for the Natural Gas Pipeline Company of America as is another K. U. man, Louis Stallard, e'40. We plan to see your game together, so please win this one for "we boys away from home".

Wishing you a very prosperous and happy new year, and with kindest personal regards, I am,

Yours truly,

Ronald Milam - b'40
