Lawrence, Kans.

Dear Phog:

In reply to our telephone conversation and your letter regarding Donaldean Maison.

The party whom I had in mind to assist Donaldean has returned to town, and as I was expecting is desirable of helping Donaldean with his financial problem. I have written Donaldean today so that he may contact the man in a business way (for Donaldean's own good) and I am certain that the matter will be swiftly adjusted.

There are a couple of boys finishing school here this year that I think you would like to have on your squad in a couple of years. Sometime I should like to discuss them with you.

I certainly thank you for calling me about Donaldean. I have a lot of interest in him, as well as K U. And while I am not in a position financially to help a boy myself, I can usually get it arranged so that someone who is can be reached.

Wishing you and your team "good luck" for the balance of the season, I am

Most Sincerely Yours,

*Max White*
