Gentlemen:

A few Weeks ago, I made my very important decision as to which college to attend. As you possibly know it was The University of Colorado.

During my visit at the university, I am competent that I will like it here very much. The climate is especially appealing to me, and their course of study fits in very well with what I would like to study.

I would, however, like to thank you very much for what you have done for me in regard to K. U. I appreciate it very much.

If you forgive me for breaking the appointment I had with you, I would be greatly obliged.

Very truly yours,

Bill Milliken
