

If such an invitation is not prohibited by Big Six rules, and meets your approval I would like to make a suggestion - that these boys be invited to sit on the K. U. bench, with the K. U. team and their nationally known coach. You can imagine how highly these young men would appreciate such a privilege. They would remember it as long as they live.

Please understand my only interest in these boys is to get them interested in K. U., and in playing their collegiate basket ball under you, and if my suggestions are out of order or impossible it is alright with me.

Sincerely yours.
