

March 25, 1940

Dear Dr Allen:

We were happy Saturday night, as was everybody in this locality, over the outcome of that very exciting and thrilling basket-ball game - I stayed up until midnight listening to it!

But aside from successful games, which of course are highly gratifying, I want to say that during your entire stay here, I have felt that University athletic matters were in good hands. Also I have been glad I was a small part of the administration that first brought you here - The wrong man could have done so much harm - I think you are the right man.

Sincerely yours

Wm. S. Mordie
