

March 16, 1939.

Dr. Otto Miessner,  
School of Fine Arts,  
University of Kansas.

Dear Dr. Miessner:

I know that Dr. Bert Nash, chairman of the School of Education party, will thank you for your very fine contribution to the success of the evening, but I want to add my emphatic thanks for the fine part that you had.

I am sorry that we ran out of food, especially after a man had worked so hard and needed something to sustain his ailing body after all that strenuous fatigue -- but seriously, you did a swell job. The next time I see you down town I will buy you a drink to make up for that which you lost at the festive board, - or should we say "Mother Hubbard's cupboard that was bare."

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
