

June 30, 1939.

Mr. Kenneth Messner,  
102 South 5th St.,  
Arkansas City, Kansas.

Dear Kenny:

You will remember that I stopped you on the street just before you left for home and told you that I was afraid your associations were not improving. I did not know then that your academic work was suffering as much as it was.

Last fall you made 16 hours of C. This spring you made 8 hours of C, 5 hours of D and 2 hours of F. You will remember that we gave you additional work in the towel room. Was the cause of the failure in your grades due to too much outside work or too much activity of another nature?

I sincerely trust that you will make a record this fall as you made when you were a freshman and as a first-year sophomore, and not continue to let yourself down.

Wishing that you have a pleasant summer, and hoping to see you in your old time stride this fall, I am

Sincerely yours,

Director of Physical Education and Recreation,  
Varsity Basketball Coach.
