Dr. Forrest C. Allen
Department of Physical Education
University of Kansas

My dear Phog:

Just a line, maybe a little belatedly, to let you know that I read through with very much interest the copy of the mimeographed letter to boys on your squad. It should have produced good results and I am personally interested in seeing one of the ways in which you build to make that extra something which makes you outstanding in your field.

With very cordial regards, I am

Sincerely,

Raymond C. Moore
