

but just how much ²pull you have from
the "inside". I'm also beginning to wonder too
whether my five years spent at Lawrence was
really worth while when you meet up with
the denials I have the last two weeks you
certainly get a different light on things. I guess
I just don't have "it" so I may as well sit back
and be satisfied and go back to something else -
but what?

I'm not particular enough to ask for an
easy job and I'll do anything to make an honest
living. Work here that I can do is Union Labor
and other jobs have about ten men for every
position.

Charles Pitts is over near Houston working.
The job he thought I could get was entirely a
fake for I haven't even come close to it. He
doesn't know enough about work here to do me
any good. He has a fair job but I haven't heard
from him the last week so I don't know how
he is getting along now.

Give my regards to all my friends
there. If you wish to write me again you
may send it to Elkhart for I'll probably be there.
Hoping you a successful season, I remain

Sincerely yours
Chas. "Liny" Moore
