

obtain a fair job and ^{if} keep it for a few years
you can bet I'll have something to show for it.
I would like to take a roustabout job if it
is possible to get and would greatly appreciate it.
It would not matter to me where it was
although, as you know, I still prefer the good old
state of Kansas.

I was rather surprised to hear of
Milton's baby. I'll bet he is one proud father. I
hope he gets a good job and I know he will
make good if he does get one.

I haven't seen Char. Pitts for several weeks
but he is working for Skelly Company as rough neck
at Ville Platte, Louisiana.

I will stay here until I hear from
you again. I haven't any other plans as yet. If
I don't find anything by then I'll probably be wandering.

Give everybody there my regards and
here is hoping you "whip in" as they come.

Sincerely
Chas. "Ling" Moore.
