of June 14 concerning the new book which just came out on Athletic Injuries by Dr. Thorndike. As I said, if you have not received a copy, I will send you the one which I just ordered so you may go over it before we make any decision. Having this book on the market, it would seem to me that ours should not come out for another year or two so there really is not much hurry.

The fifth letter encloses a clipping for our files from the Omaha World Herald, which is certainly a fine one.

What are your plans for the coming summer? No matter what they are, I hope you have a grand and restful vacation.

With kindest regards,

Sincerely yours,
