Dr. F. C. Allen  
Department of Physical Education  
University of Kansas  
Lawrence, Kansas

Dear Dr. Allen:

I tried to answer your letter of April 14th in person but found that you had taken on the baseball team for a little relaxation during the spring and as a consequence you were at Ames at the time I called at the office.

Your report of the final play-off on the N C A A tallied very closely with the reports which Everett Dean brought to me. Jack Friel seems to be in the habit of pulling stunts which are not the most strategic or which have not the desired psychological effect on his boys. In any case they certainly seemed to be playing under par against Wisconsin. It is undoubtedly true, however, that the type of game Wisconsin played against Washington State affected the results a great deal. It is too bad that we have to put up with such unsportsmanlike playing.

George Nettles came up from Pittsburg for a short visit. It was good to see him. You probably know that we saw the Rose Bowl game together. It was fun to be around the campus. Since I have become Dean of Men my trips east have become more infrequent. It was for this particular reason that I enjoyed seeing so many of my old friends. The campus certainly looked fine. I would like to get back for Commencement and help with the Seventy-Fifth Celebration but I am afraid my recent trip east exhausted the family budget.

Sorry that I missed you.

Sincerely yours,

May 7th, 1941

Mr. John Baun  
Dean of Men  
Stanford University  
Stanford, California

Dear John:

I just received your good letter of the second instant and I assure you that I regretted more than you know, missing you when you were in Lawrence about ten days ago. I certainly would have enjoyed a "bull fest" with you and George.

Yes, I have taken on baseball because I was vain enough to listen to the supplications of some orphan baseball players. Two years ago, Ralph Conger, freshman coach of football, was asked to coach baseball. Conger had never played the game. He left to coach Wentowrth Military Academy. Last year, Mike Getto was given the baseball team to coach and he had never played the game. Mike left last year to coach the Brooklyn Dodgers.

So, I was asked by the boys and Dean Stockton, member of the board, if I would take over the baseball team. Three years ago, the Varsity boys came in to me and asked me to coach the team. I told them that was up to the Director of Athletics.

Last year they again came to me and asked me to coach and I gave them the same answer and told them if they wanted me to take the team the Director of Athletics should ask me.

Gwinn came into my office and asked me if I would take the team, stating that there was no additional money for coaching it and that he didn't want to ask me to assume extra duties with no extra pay. He rather thought it would be asking too much of me. But frankly, Johnnie, I felt sorry for the youngsters. The fact that most of the players knew a lot more than the coach made a most embarrassing situation and the crowd would sit and laugh at the antics of the ball.

Baseball has not been encouraged here for several years and as a consequence, things have run "down at the heels" in this sport. You can appreciate this when I tell you that my entire infield on the Varsity had never played a game of Varsity and Freshman baseball for Kansas. You may not remember Johnny Krum, Virgil Wise, and Elmo Maiden, but all these little fellows were in that Twilight Junior League that you, Doctor Bice and I coached.

Bobbie Allen has not played any baseball since he graduated from the Junior League and has played very little Ban Johnson Ball, but we have him playing first base and serving as relief pitcher. Bob has been very busy preparing for his entrance to the Medical School at the University of Pennsylvania, and incidentally, winning a Phi Beta Kappa key. So, he has not been out for baseball until this spring and that was after a very strenuous basketball season.

We played some good games but we have had only eight days of practice. I have never seen such rainy weather. Oklahoma beat us two to one, at Norman. The second game was rained out. Then, no practice until we went to Ames, beat Iowa State, 8 to 7. The next day we had a track meet, losing to Iowa State, 23 to 6. Yesterday,

Mr. John Baun  
Page Two

we lost to Missouri, 5 to 0. We played nice ball but had no offense and Missouri had a crack pitcher. The game was played in one hour and thirty five minutes, so you know it was a good ballgame. We're playing Missouri again today and I'm hoping it will not be another track meet.

It will take two or three years to build the way things are, but frankly, John, I do like baseball because it gets me out of the office. But I have talked too long about this sport and now just a word--back to our original premise. Yes, George Nettles told me that he had a swell time with you at the Rose Bowl Game. He got a "terrific bang" out of it. Aren't you coming back for Commencement? We heard that you were. I would certainly enjoy a long visit with you, and I would surely like to see how you have improved with those irons.

The Country Club course was never in better shape than it is now, and, in addition to my other duties, they have named me chairman of the tournament committee of the Country Club. This June we are having the Kansas Amateur Championship there so it would be good to play a few games with you. In addition to our Missouri game this afternoon, I meet my spring basketball boys for practice at 7:00 o'clock, and we have a Country Club dinner at the same time, which, of course I will miss.

We have matched the two teams, and last Saturday morning, I played Guy Smith and was lucky enough to lick him so I have a free dinner coming tonight out there and just to think having a free dinner and not being able to eat it.

I'm only meeting my basketball boys for a spring practice nine nights--three weeks; three nights, Monday, Tuesday and Wednesday. So, I'll have to "stick to my knitting".

Can't you promote the sale of some of your Government Bonds and bring Bonnie along for the 75th Anniversary Celebration?

With lots of luck and best wishes. + am,

Sincerely yours,

Director of Physical Education and  
Recreation Varsity Basketball and  
Baseball Coach.

Dr. Forrest C. Allen  
University of Kansas  
Lawrence, Kansas

Dear "Doc":

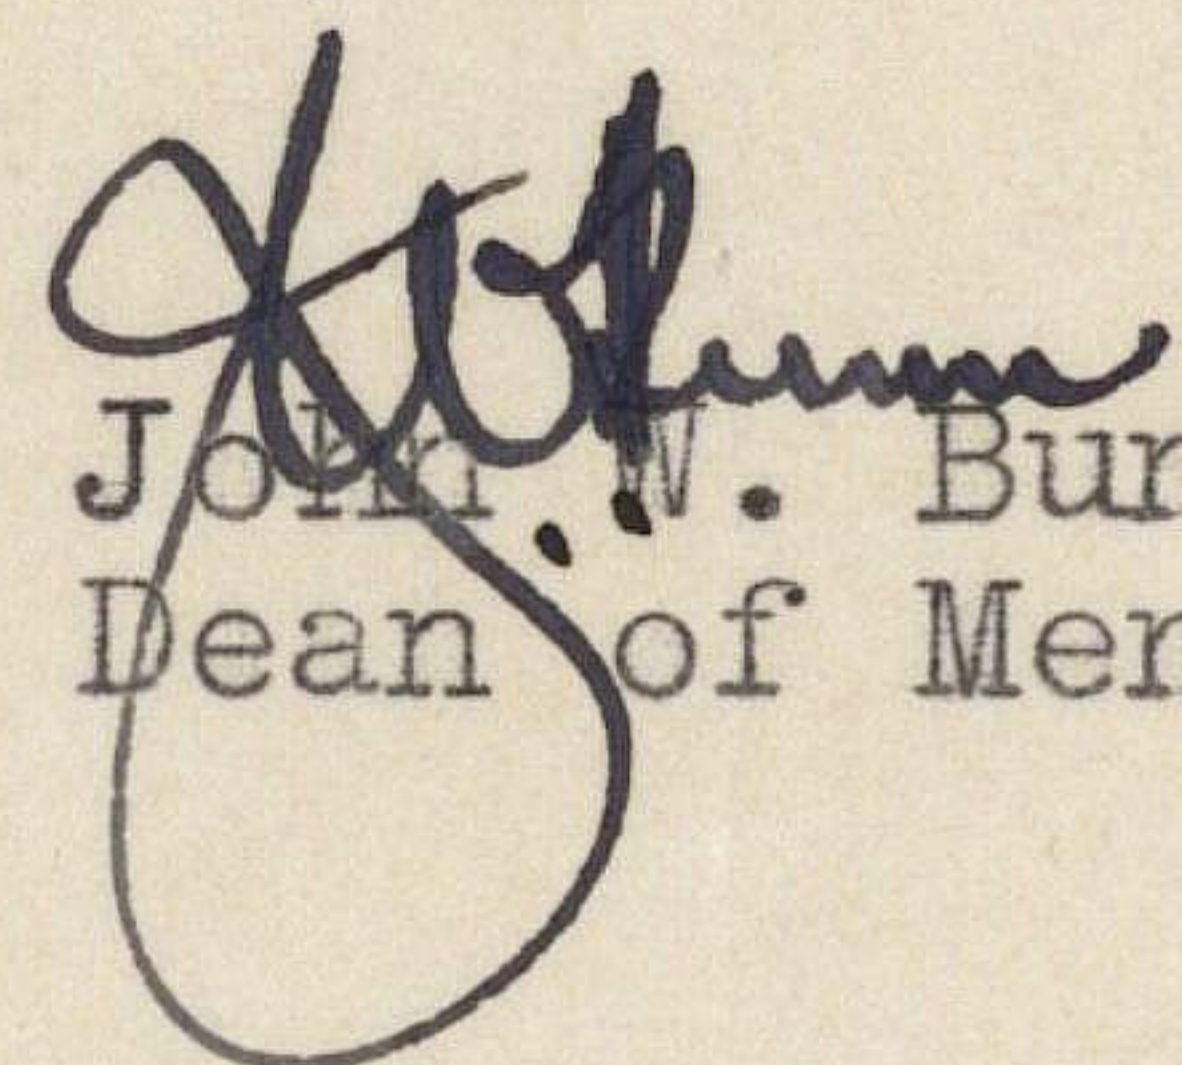

Thanks for your good letter. I know the fun that one gets out of baseball. I believe I really enjoyed coaching this sport more than any other, and particularly did I enjoy my association with the Junior Twilight League teams.

Bonnie and I had originally planned to get back for Commencement. My recent trip, however, was an unexpected one, due to the death of my mother in Tulsa, and now I am afraid that a second trip cannot be financed.

I have just recently written to all of my classmates who are in the Rocky Mountain region and west, inviting them to join me in Lawrence. I am afraid that my letter is just a little bit hypocritical but maybe something will happen so that I can take a flyer back for Commencement. I would certainly love to do it.

I read with a great deal of interest the news item that announced Bobbie's election to Phi Beta Kappa. I have been wanting to send him a note of congratulations.

Cordially yours,

  
John W. Bunn,

Dear Mr. Burrows:

I have your letter of the 12th instant, and beg to advise that I am not expecting to attend the National Boxing Association meeting at Winston-Salem on September 8-10. Mr. Gwinn, Henry, our Director of Athletics, is the representative. I do not know how my name appeared on the list - it probably was an old list.

Dear Bill:

I have just returned from my coaching school in Iowa and find your letter of August 21st here to greet me.

Yes, sir, you and Tommie Thompson can count on a job when you start to school. It will be a pleasure for us to have you with us at the University, and you can explain to Tommie that it is necessary to enroll and then we can plan the work in conjunction with your other schedule.

The enrollment schedules have not been received from the printer as yet, but as soon as we are able to obtain these we shall be glad to send you one. Registration takes place on Friday and Saturday, September 12 and 13, and enrollment is on Monday and Tuesday, September 15 and 16.

Since you enrolled in the College last fall as a freshman no doubt you will wish to continue in that school. However, as soon as you come to Lawrence if you will see Dr. Elbel, in the Physical Education Department, he will be very happy to advise you regarding your enrollment and help you plan your schedule.

We will be happy to see you when you come.

Sincerely yours,

Dear Doctor Allen:

There was a couple of things I forgot to find out when we were up in Lawrence a few Sundays ago. First of all, Thompson and I want to know if you will have a job for us when we start to school. I told Thompson you would have a job for us, but he wanted me to find out for sure. The other question in my mind was, if

you have time would  
you please send me  
a schedule for enroll-

is what I would be

Dear Dr. Allen:

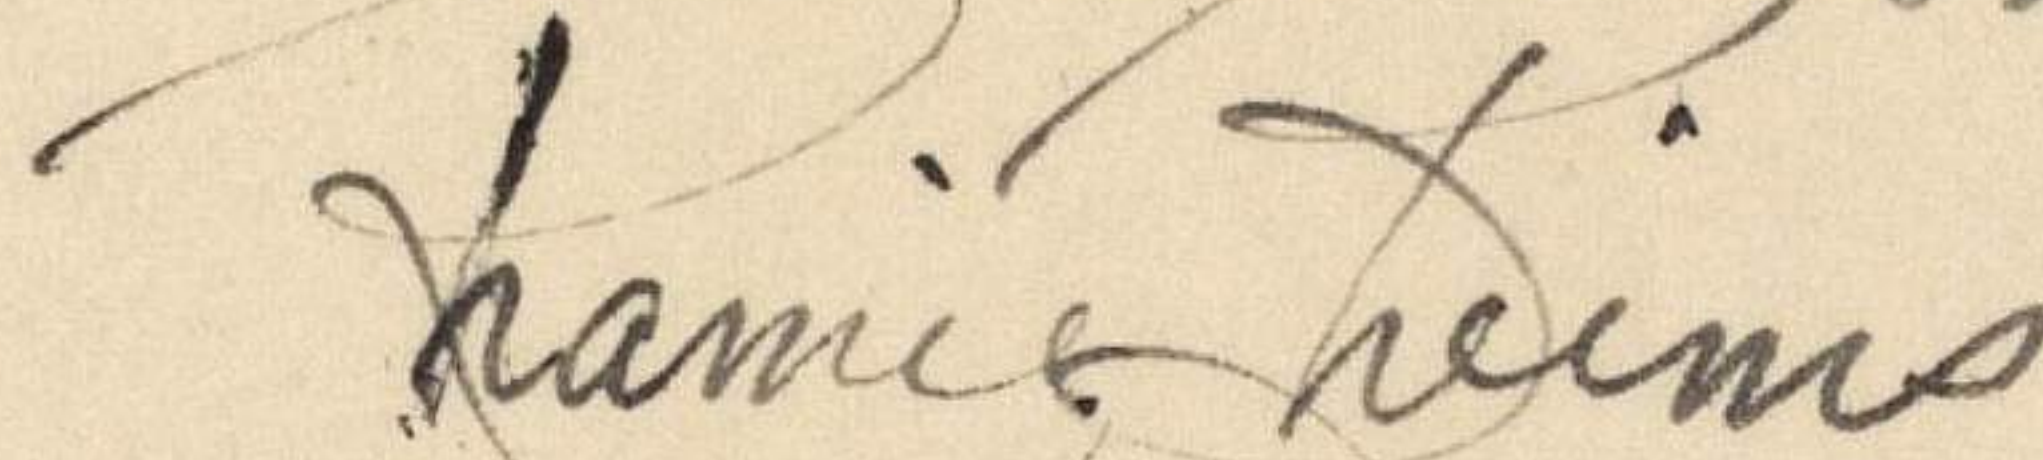

I wish to thank you for your interest in me and the notification of the opening at Stanberry High School. I have written Mr. Haas thanking him and informing him that I am interested in the position.

I have had Mr. Chandler forward my credentials to the Stanberry High School and have written the principal there to tell him of my desire to make a personal application. I would have gone immediately but conditions were such that I could not go before Monday.

I also have been informed of an opening at Lansing. I have sent my application to them and intend to make a personal application there on this same trip.

Thank you again for your recommendation and assistance.

Yours sincerely,

SUBJECT: National Boxing Association of the U.S.A.  
Winston-Salem, N.C., Sept. 8th-10th, 1941.

Dr. Forrest Allen,  
University of Kansas,  
Lawrence, Kans.

Dear Dr. Allen:-

In connection with the above meeting we are advised by the Norfolk and Western Railway that Mr. Joe Triner, President of the association at Chicago, desires all members to go to Cincinnati, using the N&W through Winston-Salem sleeper leaving that point on "The Pocahontas" at 10:15 PM, arriving Winston-Salem 2:00 PM the next afternoon. This sleeper contains lowers, uppers, and bedroom accommodations for one or two persons. They anticipate enough members will attend to warrant the operation of a special sleeper from Cincinnati September 7th.

You can leave Chicago 1:45 PM or St. Louis 12:05 NN via New York Central System, arriving Cincinnati 8:55 PM, in ample time to connect with the above service.

Your local ticket agent will be pleased to quote you fares from your city to Winston-Salem, and also train schedules to either Chicago or St. Louis. As a matter of information the lower berth rate Cincinnati to Winston-Salem is \$4.50; upper \$3.40; bedroom for one \$8.05; bedroom for two \$8.95.

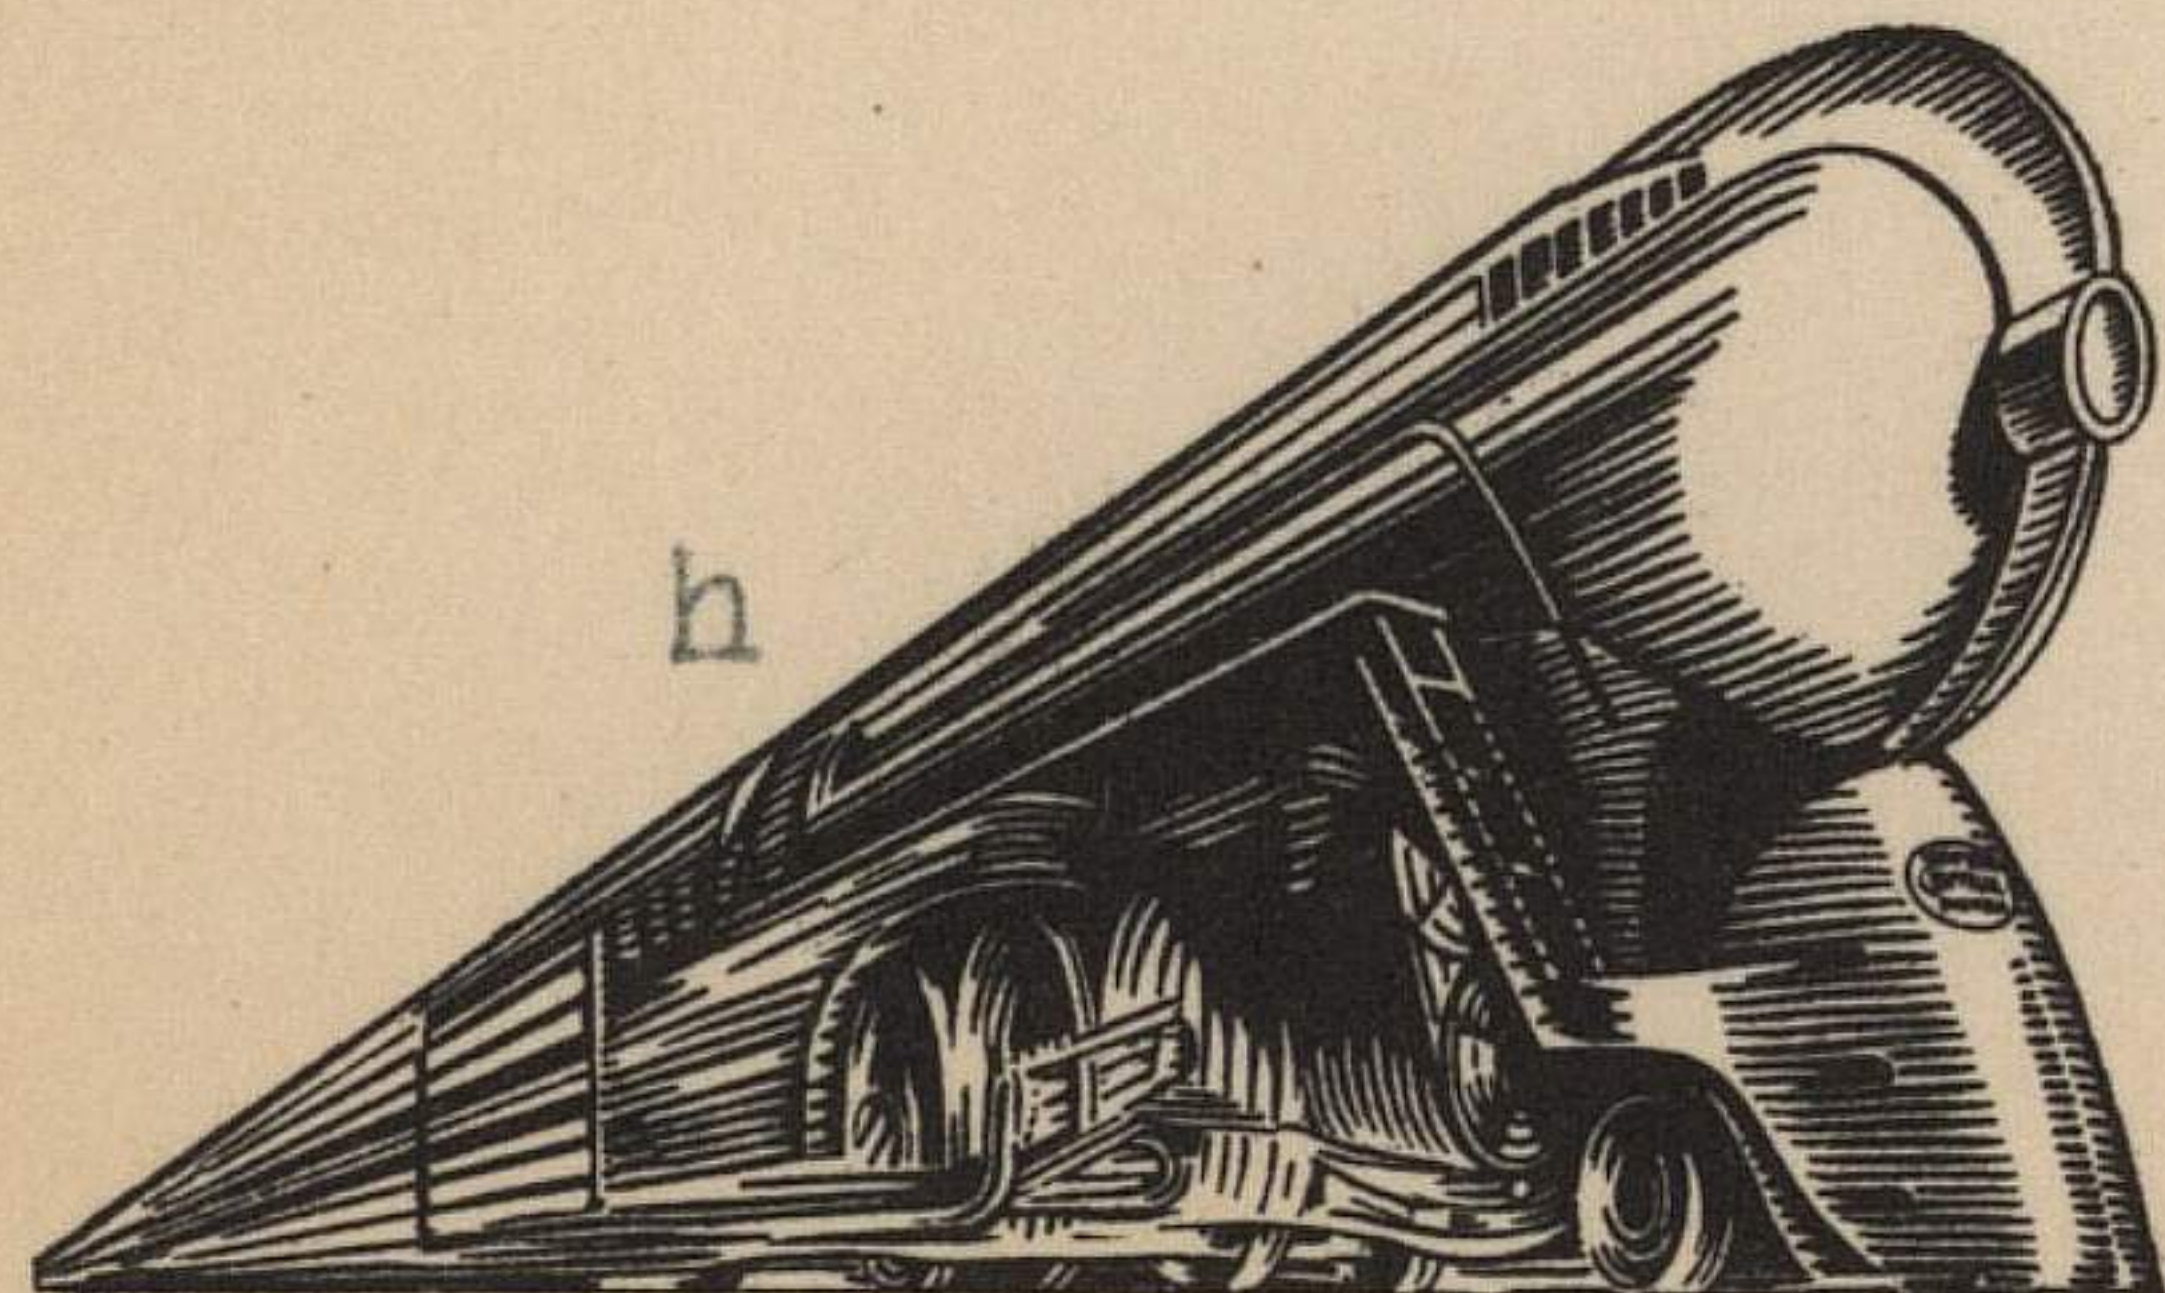

Will appreciate your advising whether or not you will attend this meeting, and if so space desired from Cincinnati, so that members from this territory can be located in the same sleeper.

If we can furnish additional information or be helpful in any other way, please command us.

Yours very truly,

Mr. C. O. Burnside,  
Carpenter Paper Co.,  
Oklahoma City, Okla.

Dear Cob:

Thank you for your good letter. It is not necessary to reply to this one because I will be on my way at the end of next week for Boone, Iowa. Prior to that I am going up a couple of days early to Mason City, Iowa, where Charles Strickland, whom you perhaps remember as a pepper-upper for Phi Psi, is putting on a big rush party at his Clear Lake home.

He has a golf tournament, boating, swimming, and so forth, and I imagine he will have all those Iowa rushees with their eyes popping out for old Phi Kappa Psi. He has me listed as one of the animated cartoons at a dinner at the Mason City Country Club, and I am to appear along with Nile Kinnick and Justice Garfield of the Supreme Court. And you know what I am going up for is a good visit, a swim, and a game of golf. And if I can meet any of the young promising brothers of course it will be a pleasure.

Now, back to Hank Iba, and this is the final. I do not expect to mention a game to the young Sir Galahad of Oklahoma, and if he does mention the same to me there will be no retraction from my stand. If the game isn't worth that much for playing it, it isn't worth it at all, and since all of the initiative was on his part in the beginning it will be a cold day in his part of the country before another game is booked.

He started the barrage at Maryville through his friends on the newspapers, stating that Kansas was afraid of him. The same line of argument was used with his friends when he went to A. & M. If he mentions anything about it I will tell him that I do not like this back-door psychology that he operates with.

I am not arguing with you, Cob, because you and I do not have to do that, but you state that he played Texas and Southern California last year and they both carried away a chunk of dough. I don't see how they could have carried away much if he made the same proposition to them that he is making to me. We don't make any money at all on a \$400.00 guarantee. You also mention that he can get five thousand wild-eyed fans out for an exhibition with

Central State of Edmond. I do not doubt that in the least since he has about seven thousand students there. When I made the statement that he wouldn't make much money I meant the money that is drawn in from over the state that pays cash at the ticket window.

I can appreciate the fact that Hank Iba is hard up because I was that way all the time I was Director of Athletics here, but I certainly would have enough sporting blood to carry on a contract that had been in existence three or four years or more, rather than try to abrogate it on some flimsy excuse. Personally, I think he walked out of the back door. And frankly, I think he came in the saweway when he started.

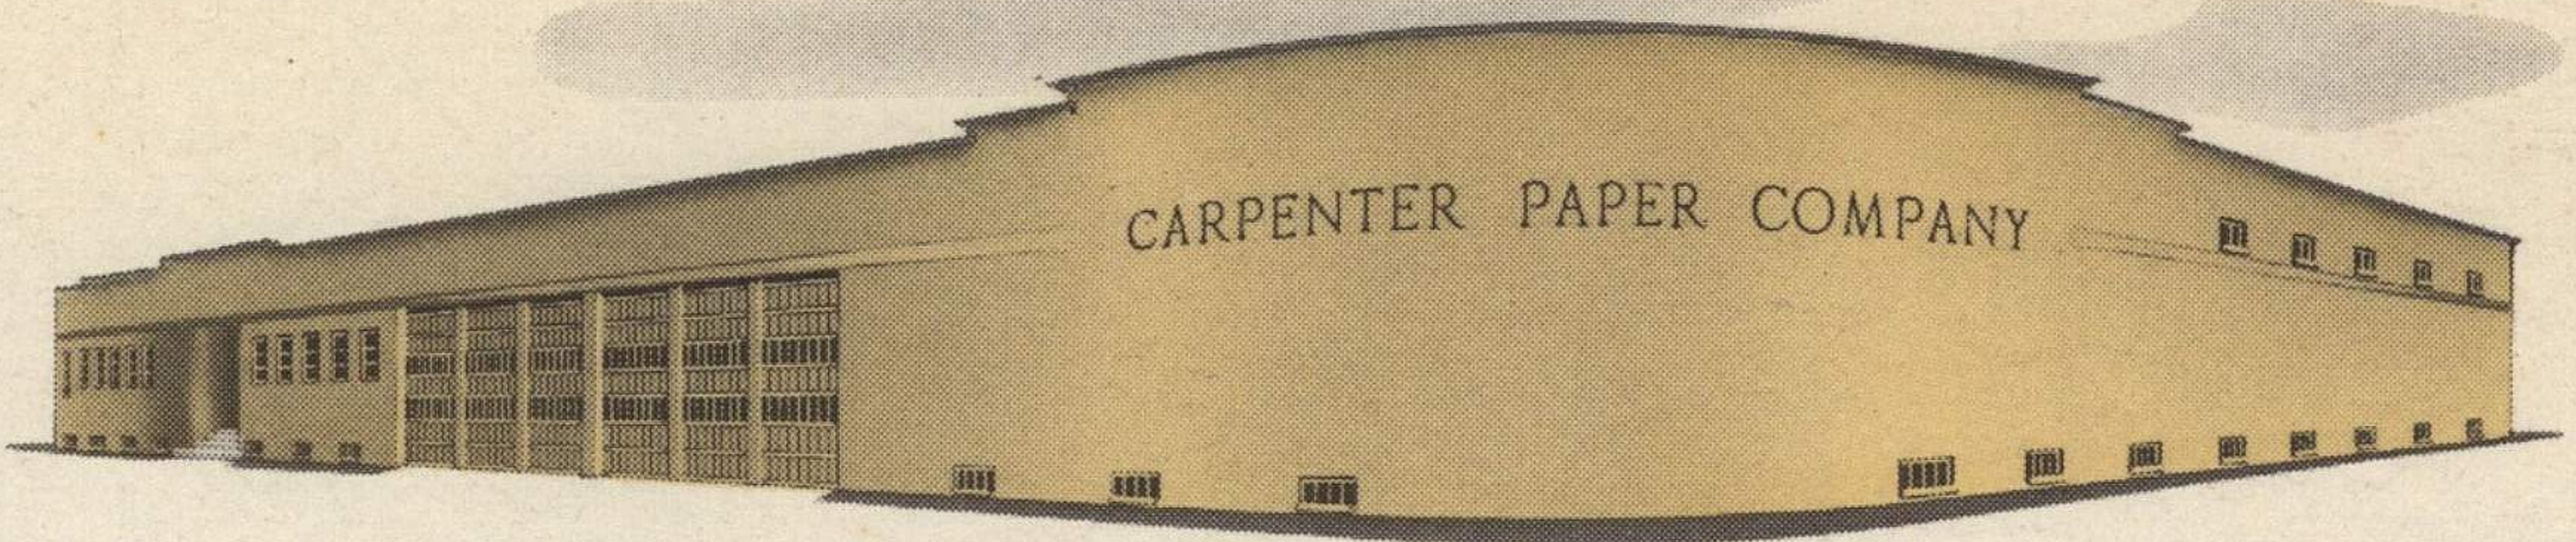

So you can see that I am in no mood to talk get-together with a fellow who has handled the situation as awkwardly as he has. You won't forget that I went down there with a green sophomore team and dedicated his field house and took two lickings -- and all this when there had been back-door pressure to play these ball games. I think I am in a pretty good spot to tell him, if he opens up, and perhaps you knowing me as you do can bet your money that he is liable to get an earful.

With all good wishes to you and your family, I am

Sincerely yours,

# Carpenter

Dr. F. C. Allen,  
University of Kansas,  
Lawrence, Kansas.

Dear Doctor:

It is my understanding that you and Hank Iba will be together in Iowa next week and I am certain you will get to work out your game schedules or else decide it is useless to discuss the matter further with him. You may be assured that if this is the procedure, you will never be censored by me for I think he was trying to do a little chiseling.

While he is in the wind-blown sand country, and it is true that Oklahoma is his big game, you are mistaken in the thought that he has few temas in his conference that draw a gate.

Tulsa and Creighton draw as well as Kansas and it is surprising the way they fill that barn regularly regardless of the competition. He can get 5,000 wild-eyed fans out for an exhibition with Central State of Edmond, and that is no mistake.

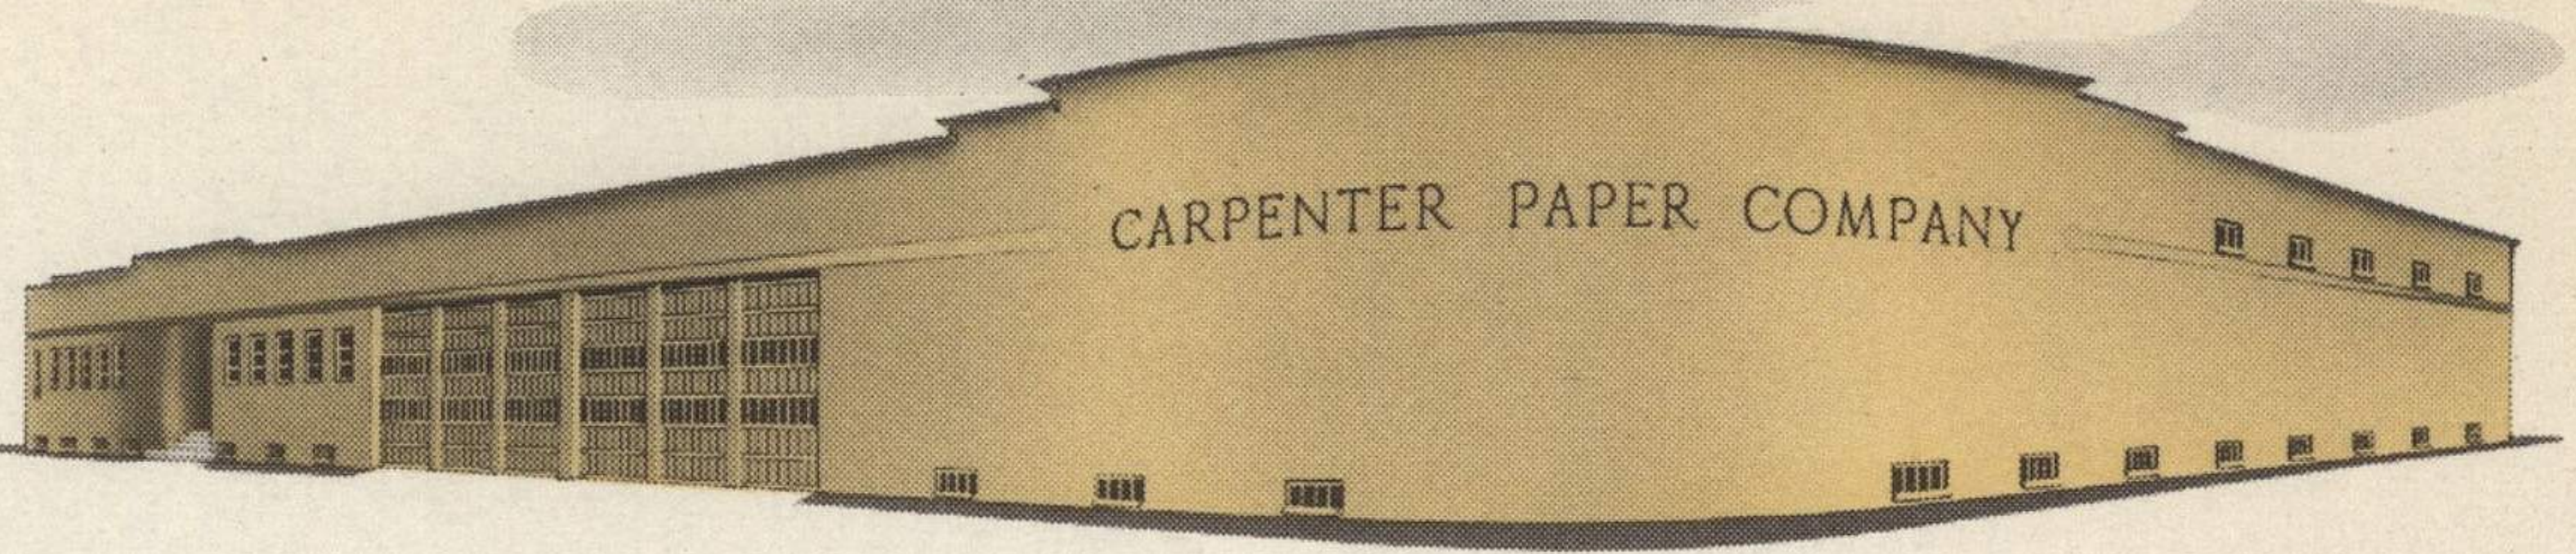

He has crammed a snappy little rule down the Missouri Valley boys throat whereby he pays his own expenses to each of the other campuses and he pockets all of the home gate. I think this is rather clever management. In this way he netted \$14,000 for A. & M. last year and this clover money helped carry football which has been in the same bracket as the old Crimson and Blue of Kansas, a loser on the field and a sorry gate attraction.

He had the idea that he could put you in practically the same basis and I guess he thought it would be all right if you would accept. He played Texas and Southern Cal last year and they

# Carpenter

both were money makers for him and they both carried away a chunk of dough.

If he ever gets the proper climax with a series with Kansas, you should make a couple thousand dollars.

One thing you will have to admit and that is you will always carry away two or three times as much of his money as he will take from your campus. I am not trying to extend the argument but I think you have him wrong in this respect.

We have had a nice break in the weather and we are just as comfortable here this week as we would be in Colorado. Of course, you don't have the thrill of going away.

When Vic was here, his tone didn't sound very hopeful for this fall. He spent most of his time telling Bus and me how difficult it was to develop a team at Kansas. Sounded like old Ad Lindsay's line of defense. The Kansas situation certainly must be futile with such leadership as our gridiron forces have at the moment.

I hope you have a good school in Iowa and please accept the above comment in the spirit in which it is given.

Very cordially yours,

Dear Doctor Allen,

I recieved your letter and thought I would write and let you know that I've tried to get in shape this summer. I worked out at Sublette, Kansas, scooping wheat, driving a tractor, truck and riding a combine.

I saw Ed Hall once in a while and I also struck up a friendship with Otto Schnellbacher. I tried to point out the advantages of coming to K. U., but don't know whether I convinced him or not. He has had offers all over and when I left, he was preparing for a trip to Colorado to see Frosty Cox and to look things over there (expenses paid).

Incidentally, the lady in Mr. Henry's office told me to leave my name and my sweater size in the office and if my grades were O. K. they would mail my sweater. I failed to do this as I didn't know my sweater size. Now I know my grades were O. K. and my sweater size is size thirty eight (38).

Now I'm working in the bank with my father while the assistant in on his vacation. I will work here about two weeks.

There isn't any promising material from around here coming to school next year, but in a year we should have a couple of good boys.

Wright is working in Colorado, but I don't think he expects to come back to school.

Good luck on your trip east to Coaching School.

Dear Sam:

Thank you for your fine letter of invitation to play golf with you on Monday afternoon, August 11th. I am sorry that I had previously made arrangements to go in for that afternoon for a physical check-up with my good, amiable friend, Dr. Don Carlos Peete. I had made this appointment a couple of weeks ago and even though your fine invitation to play golf is more compelling than having someone listen to my ticker, nevertheless I feel that an individual should be gone over once in a while for safety's sake.

The fact that my good friend, Howard Jones, passed on unexpectedly had nothing to do with it. Ever since last winter I have been promising Dr. Peete that I would come in for a complete physical check-up, and this happens to be the day. But I do want to thank you very much for thinking of me and inviting me in. Nothing would give me more pleasure than to play with you two. But if you will give me a rain check for this summer I will try to make the connection. If Bob can't get out with us, you and I can dub around and have a lot of fun.

I just got a circular this morning from Chakkes Strickland who is putting on a great Phi Kappa Psi outing and rushing party at Mason City, Iowa, on Saturday, August 16th. He has a great set-up and I have agreed to attend the meeting and be one of the animated cartoons for the dinner festivities which will be held at Mason City Country Club. I am to be at a coaching school at Boone, Iowa, which is sponsored by the Iowa State High School Athletic Association the week of August 18th, and I am going up a couple of days early to be with the northern Iowa alumni group and their rushees.

After I get back from Iowa if you are free I will make it a point to run in for that game of golf. I would rather have the afternoon free with no encumbrances, and perhaps in the morning I can make some of my connections that have been delayed in Kansas City.

Thank you again, Sam, and we will have that golf game if I have anything to do with it.

I want to tell you how very proud I am of Bob in his fine golf competition. He made a great up hill fight here at the University against conditions that were rather discouraging, but he fought his way out of it and showed them that he was the best golfer of the outfit. Give him my very sincerest wishes for his continued success and happiness. And the same to you.

Dear Fog,

The Sanford Brown American Legion Bulletin has just come to my desk and I notice that you are booked for a speech at the Sanford Brown monthly meeting, Monday, August 11, 1941.

Since Bob and I are staying home this summer; (Bob is working down at Swift & Co.) why don't you plan on coming down for a golf game Monday afternoon and for dinner with us Monday evening? It may be that Bob might not be able to get off from work Monday afternoon, but even if he can't, we'll have a golf game.

It has been so hot that the course is very much dried out and with the thermometer around 100, I haven't been playing very much golf, but it's raining here now and the weather has cooled off at least temporarily.

In any event, I would enjoy having you play with us at Mission Hills and I would like to hear from you at your convenience.

Dear Cob:

Thank you for your good letter of the 31st ultimo. I had just simply marked the two games with Oklahoma A. & M. off of our calendar. I am not begging Hank Iba to play us and if he wants to play us he will play us under the same terms that we have played before.

I am not cocky nor am I arrogant, but I am rather fed up. I can remember years ago when he coached at Maryville Teachers College, McBride and other sports writers would say, "Why don't you play Hank Iba?" And then when he went down to Oklahoma A. & M. I heard the same thing. I asked these gentlemen, "Who is Hank Iba?" I stated that he had never written me and apparently if he wanted a game he would write.

You know, Cob, I am strong for fellows who are direct. When they beat around the bush then it is almost a sign to me that they are afraid to face the music or else they do not want to put themselves in the position that they should reasonable be placed in. For that reason I do not like horseplay.

Iba had gone ahead and arranged his schedule without due consideration for the other fellow, and as far as I am concerned I wouldn't care whether I play him or not. I do want to thank you, at least, for trying to make reparations. But when we meet in August I assure you I will not bring up the subject. He is down there in the sand country and outside of Oklahoma he has few teams on his conference schedule that will draw a gate. And when he does get anyone else I assure you he will pay enough, even much more than he is paying us, to get them on his schedule. So while some people might consider him an astute and clever business manager, certainly from this angle it impresses me otherwise.

Well, it has been a little warm here, but we still like Kansas and her environment. A couple of months in the year it is pretty tough, but all the rest of the months I am pretty definitely an enthusiastic booster for Kansas.

With kindest regards to all, I am

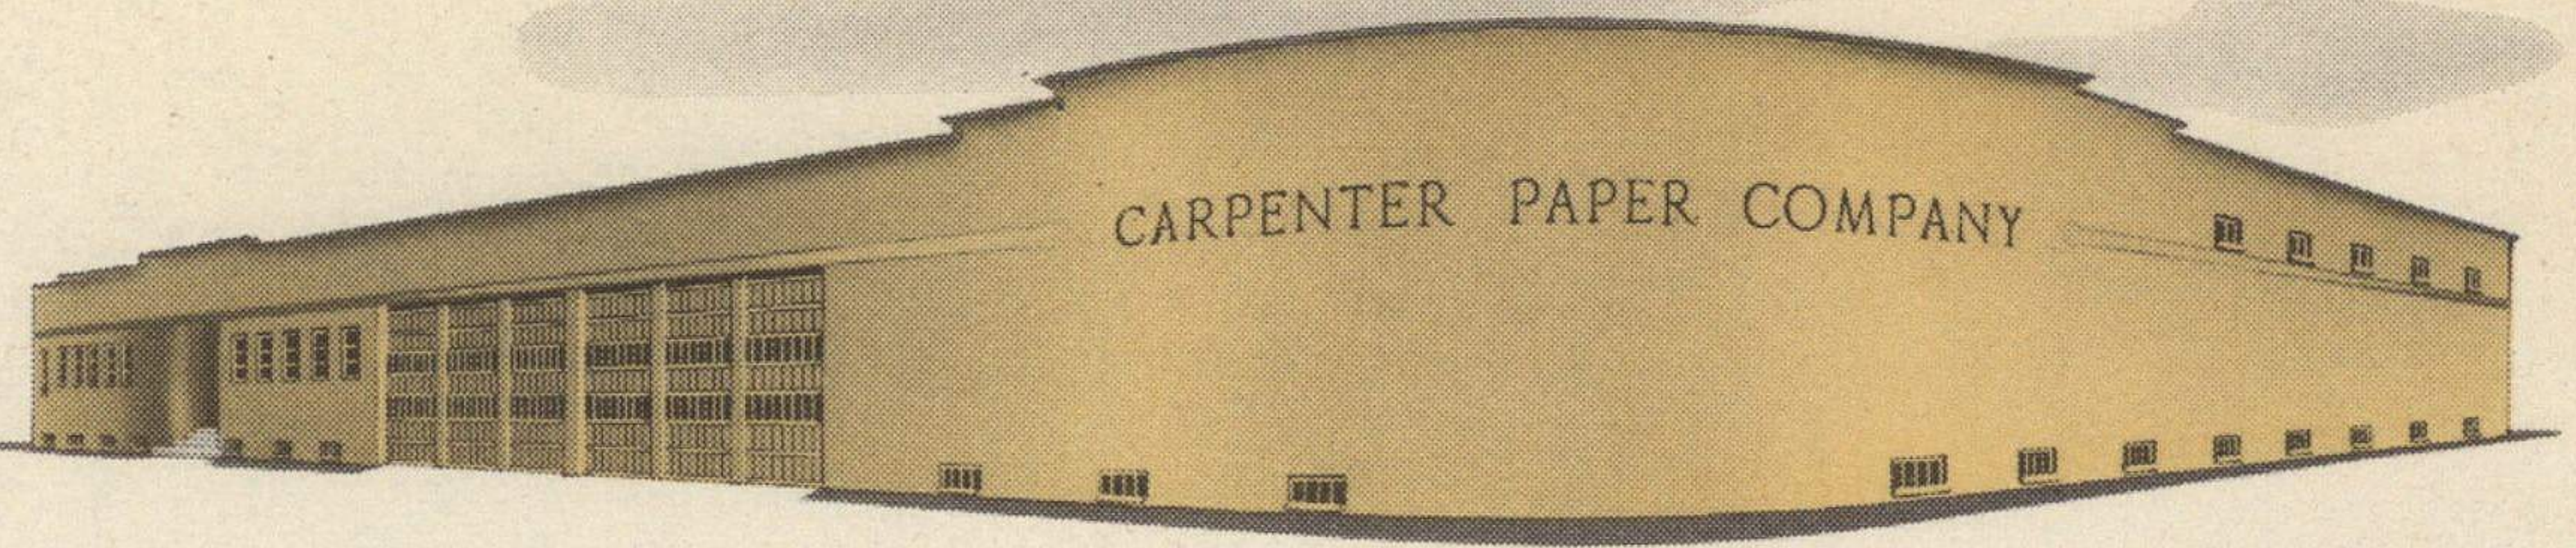

Sincerely yours,

Dear Doc:

Since our last exchange, I had a luncheon date with Hank Iba and Bus Ham and believe you me we had a long, hard round. We fought this thing out about as vigorously as you and Hank do on the basketball court.

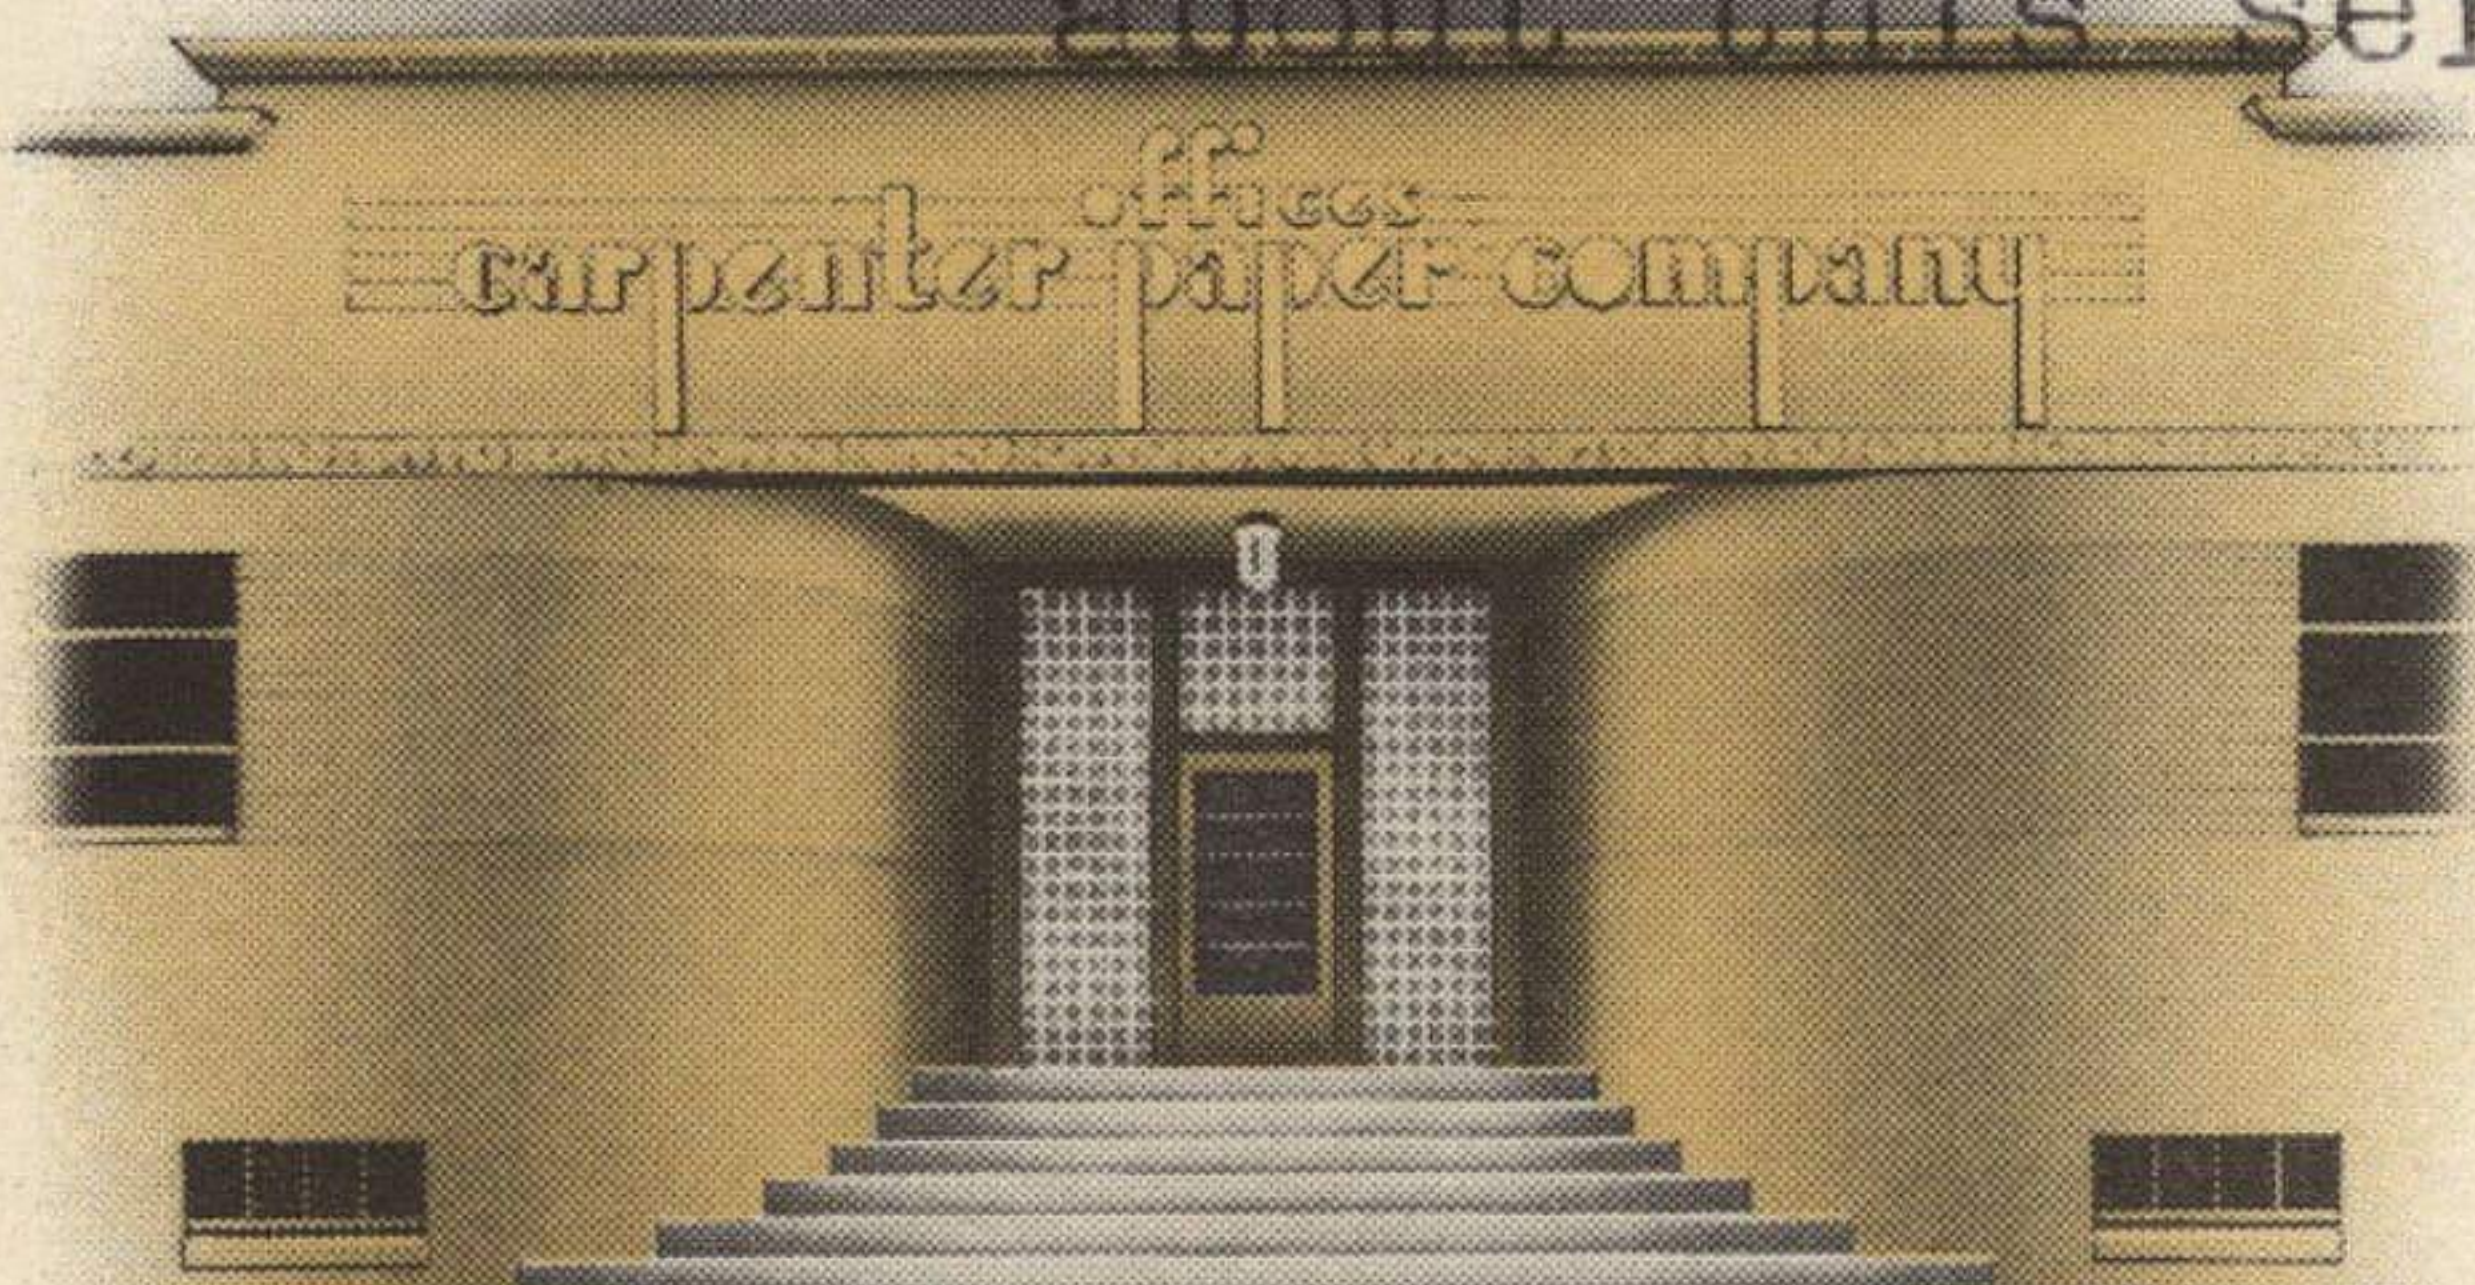

After the luncheon, I wouldn't have given a dime for the chances for our game. He was pretty stubborn and set on his terms. He did suggest that Bus and I join him over the weekend on a floating trip down the Illinois River where the matter where the matter would be finally settled.

I didn't get to join the party, but I understand the boys had a grand time and caught a lot of fish. His parting sentence to Bus was, "Tell Cob I am going ahead and play Doc the way he wants me to." He was reasonably certain all along that you two could get together at the Coaching School which you have together in August.

The boy really wants to play you, but he is a little spoiled by the Missouri Valley League. He writes his own ticket with them and expects to do so in every tournament.

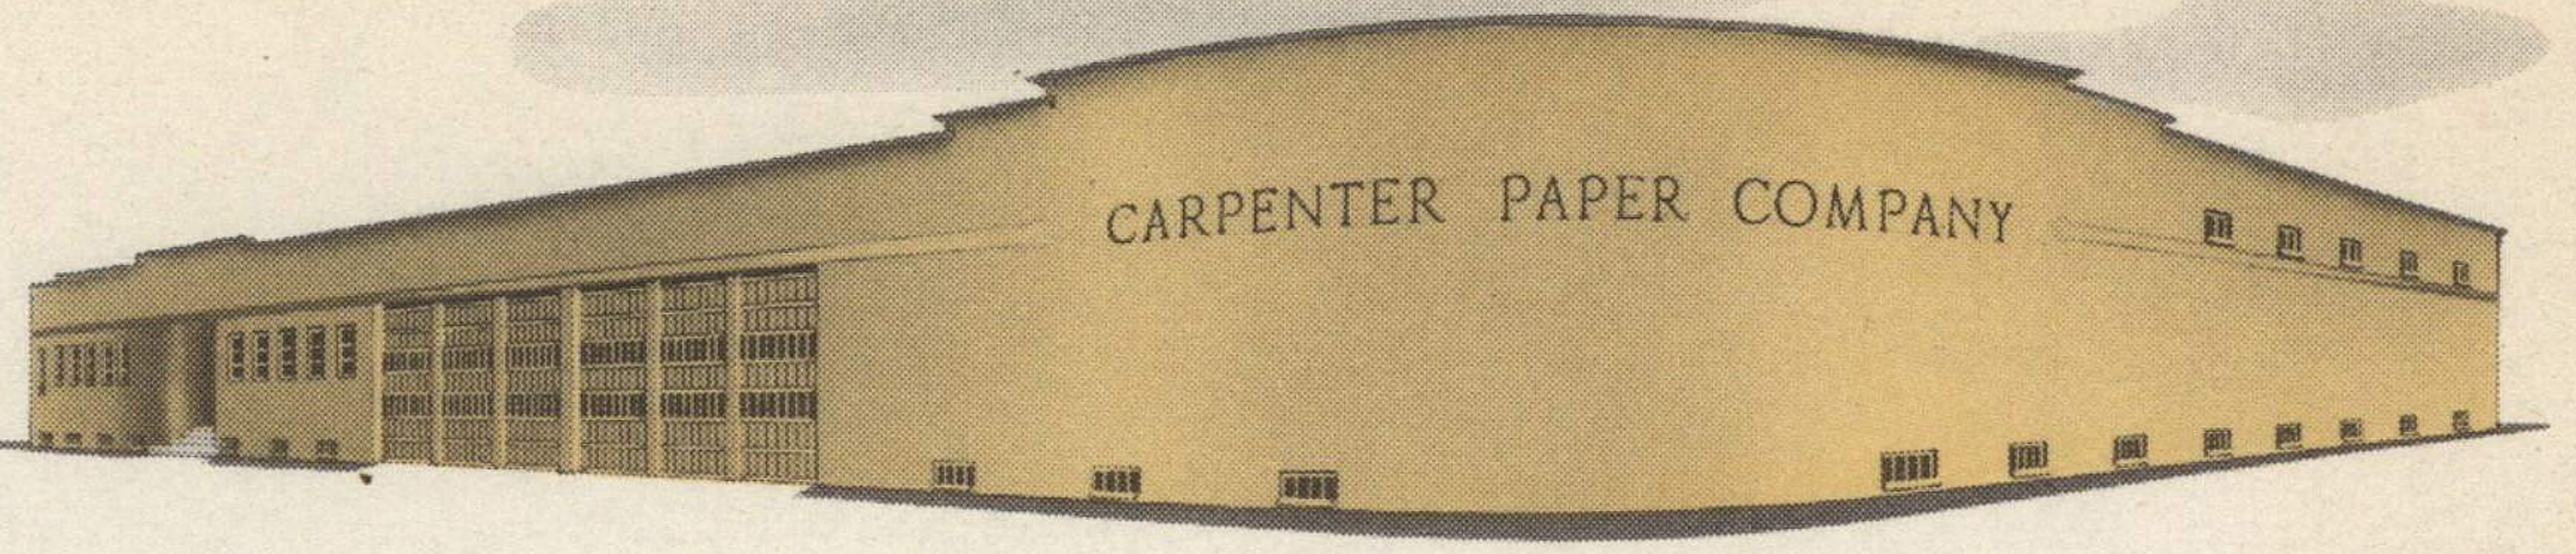

I certainly think this is a series of games that should be continued. Hank says that he would like to play you every Saturday night if his health permitted, but he admits that it would be pretty rough.

He did say after all the argument that Doc and I have had about this series of games, these kids will really have a good time when they get together on the court next winter.

Dear Dr. Allen:-

We arrived back in Greenville last week on schedule time, and I wish to again express my appreciation for all of your kindness to us while we were in Lawrence. Everyone enjoyed the concert on Monday night, and you were certainly wonderful in giving me relief with my leg. I am much better now and walking alone, even though I have a slight limp as yet.

Again thanking you, and with all good wishes, I am,

Gratefully yours,

*Lewis S. Bullock*

Mr. Lewis S. Bullock,  
Greenville, North Carolina.

Dear Mr. Bullock:

We were happy to receive your letter of the 15th instant telling us that you arrived safely home. You carried many good wishes for you and your choir and there was much sympathy for you when you left Lawrence. You were mighty game in carrying on when many people would have laid themselves up as casualties.

I wish I might have the opportunity now of looking you over once more and endeavoring to get that slight limp eliminated altogether.

I am enclosing a small good will honorarium for you. While this is much too modest for the kindnesses that you exerted, I am sending it to you and Mrs. Bullock trusting that you will buy something for your own personal selves.

With good wishes to all of you and trusting that you will not forget us at any time you should happen through Lawrence, Kansas, I am

Sincerely yours,
