Dear Sir-

I would like to order a Basketball Guide Book for high school work, however I don't know the names of books you have written nor the prices. I want the best methods and plays, practice drills and conditioning exercises.

This year I have a group of boys who are Seniors. They began playing together while in the eighth grade. They understand each other well and are very fast. I believe they should win the Conference if I do my part.

I would like to hear from you at once as I am anxious to complete my plans.

Respectively,

Guy McCoy, coach
