Mr. Hoyt Baker,
Peabody,
Kansas.

Dear Mr. Baker:

I have been informed by a member of this faculty that a representative of the University of Kansas recently made statement to some citizens of your community that no military training can be had at the University of Kansas by anyone enrolled at same.

For your information, I am enclosing several pamphlets regarding the R.O.T.C. at this institution and two bulletins of the University of Kansas containing information relevant to R.O.T.C. training at this institution.

I appreciate your interest very much in this matter, and assure you that all efforts on your part to correct the wrong impression regarding military training here will be of service to all concerned.

Sincerely,

KARL F. BALDWIN,
Colonel, C.A.C.,
PMS&T.
