Dear "Tony":

Evidently our letters passed in the mail.

Personally, I think Oklahoma Aggies and Kansas would draw much better than the arrangement that you have tentatively made with Missouri and Kansas on the 30th. I don't believe it would be best for Kansas to follow the Missouri game. That would put the games too close together.

Of course, if you have made tentative arrangements and can't change them, I can appreciate your position.

Very sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball and Baseball Coach.

(When I wrote this I thought the game was to be in Kansas City,
but later learned that the game was to be at Columbia.)
