

I depart for N.Y. School begins there June 30. I hope to be in Camp by June 28 to get settled, meet & greet old & new friends before work begins.

Our camping program here has been and still is quite successful. Our Juniors returned from their 2 week encampment last Thur. eve. They followed the Sr's. encampment. And now our 4th graders are camping, thus you see our school activities have been somewhat broken up; but the two week encampment program was so worthwhile that the students were justified in missing classes 2 weeks. The camping program will be carried on throughout the summer. 4th & 5th graders go June 15, 10th graders July 1, etc finishing the year with 7th graders in August. No definite plans have been made for another year but we're hoping to be one of the schools represented in the camping again next year.

I presume K.U. is in the midst of its final festivities. The alumni materials I've received makes me wish I could be there for the celebrations. I'll be there in mind if not in body.

Did Maurice Cannady get the job in Honolulu? (wasn't it Honolulu?) I'd like to be back at K.U. to check upon friends & classmates. My day there in April was too short as was my week vacation there.

I must close. Now that I've expounded so elaborately, I should feel better, eh?

Best wishes to you & the K.U. Phys. Ed staff & student friends.

Sincerely

Ruth Baker,
Lakewind Consolidated Schools,
Battle Creek, Mich.
