

F. C. Allen

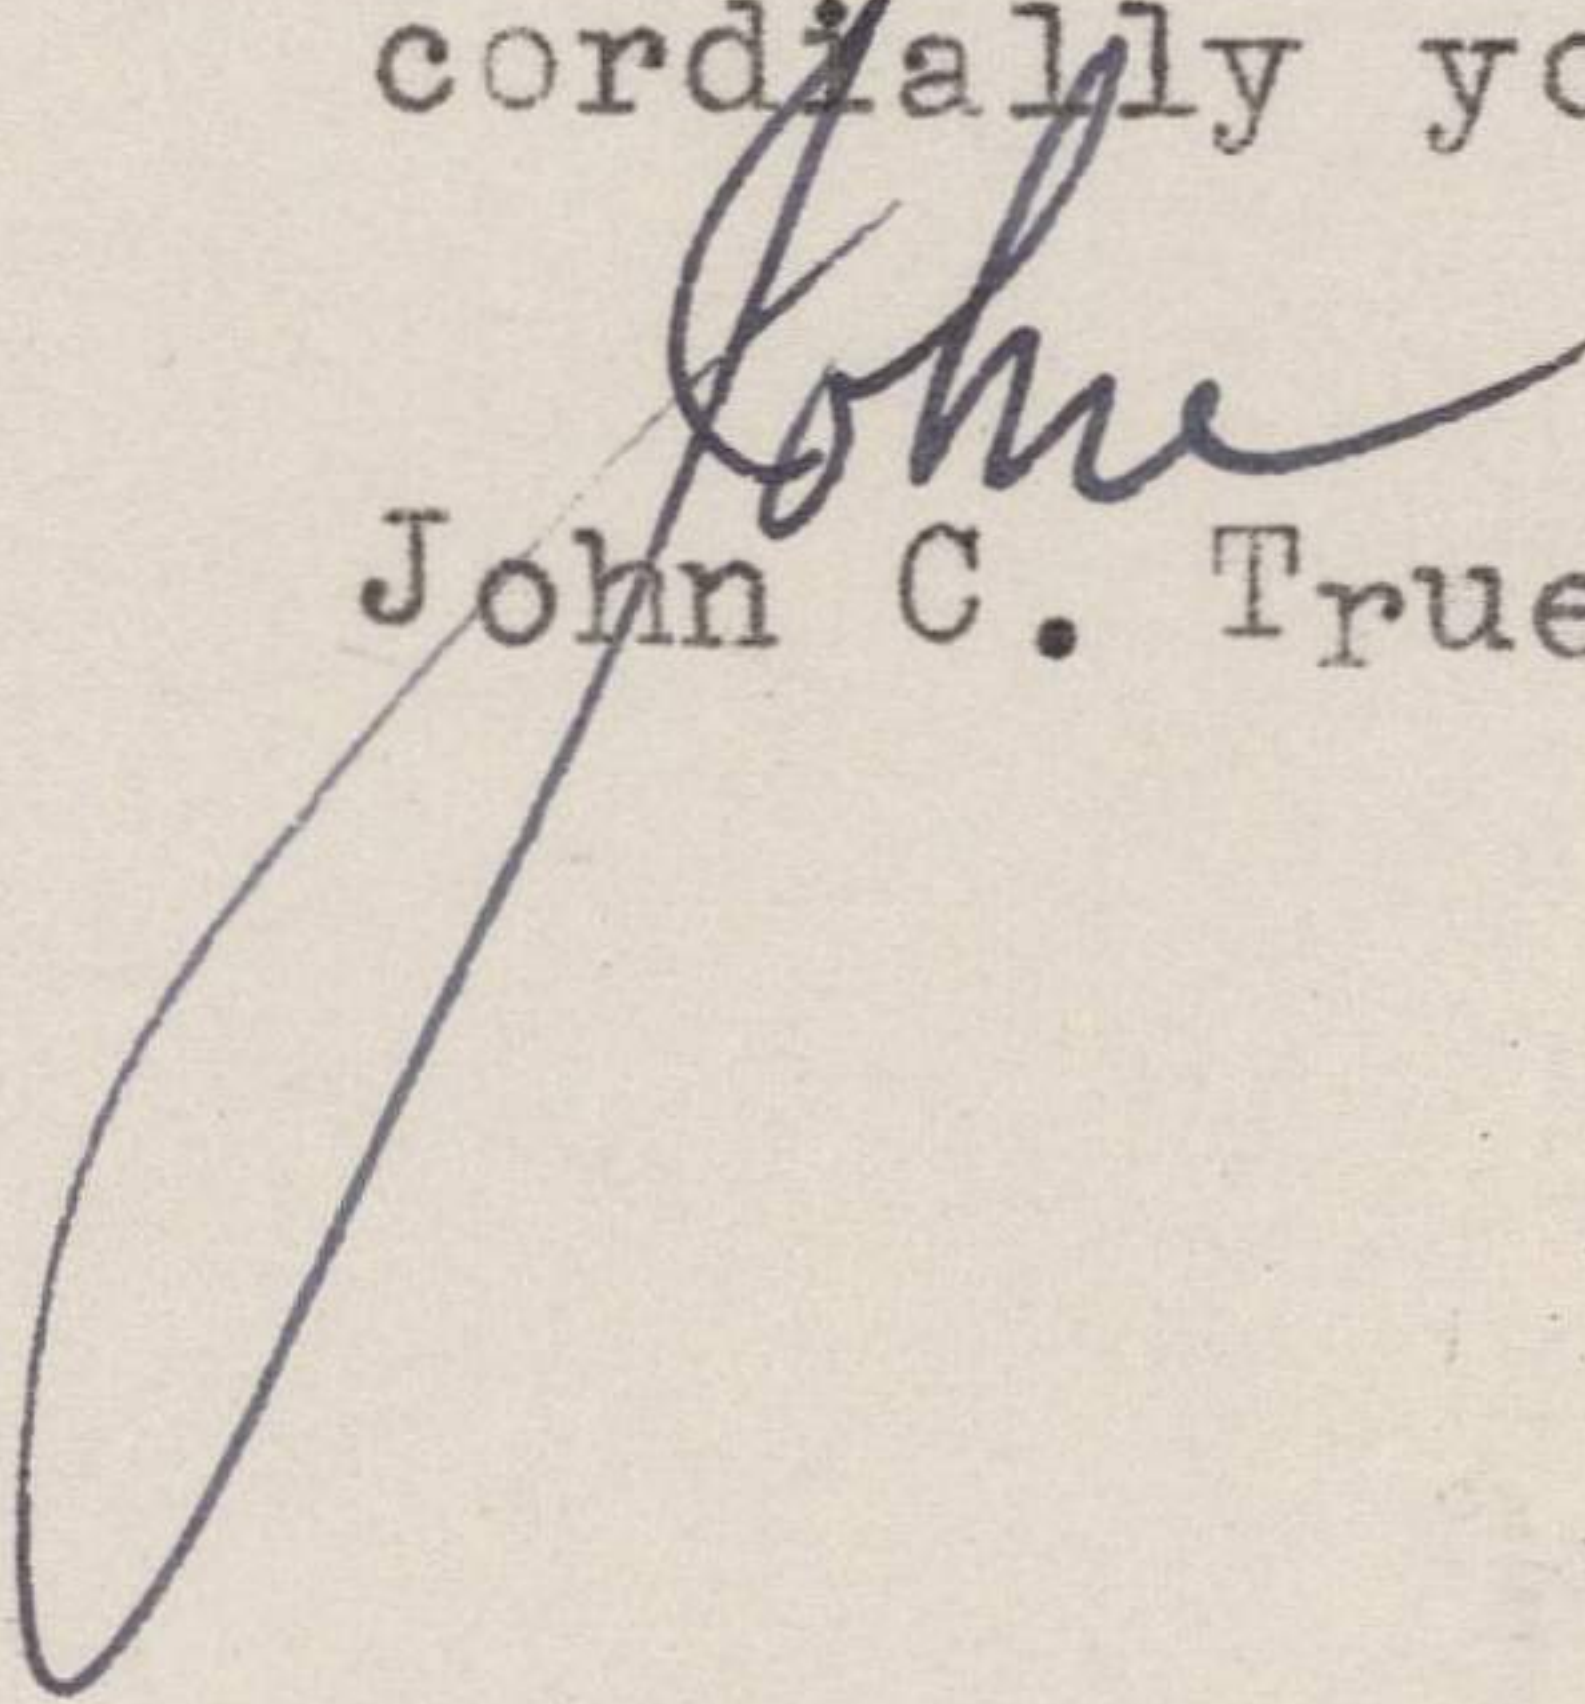

2

I see no reason why the balance of the Committee should not be able to transact the business of the Committee without me, especially in view of the points I have set forth here. But if necessity should arise I shall be here in town all day Tuesday and could be reached by phone. The Valley Conference might be jealous of the interests of it's teams and therefore might expect it's representative to attend all meetings, but I am sure whatever you decide will be for the best interests of basketball and of the NCAA and that I would subscribe also.

I would be very glad if you should decide that the Committee should be called together at the time of the play-off for the purpose of running matters, and you may be sure I would do my part on any assignment you see fit to make for me.

With kindest regards, I am

cordially yours

John C. Truesdale
