

Dr. Forrest C. Allen

Page 2.

July 26, 1940

I am not particularly excited about Keene's material, but at the same time, it does represent a point of view which I believe is deserving of attention. Later on in the Fall, I shall again canvass the situation insofar as members of the committee are concerned, see how many have seen fit to reply to Keene, and try to arrive at a summation of opinion of the committee in regard to it. At any rate, the criticism was written constructively, and it seems to me that we should give the case consideration.

I didn't know whether this material you sent me was a file copy. If it is, I will be glad to return it. If not, I will be glad to keep it. Kindly let me know what your wish is. Probably a copy of it should go forward to Keene because I think it has some bearing on his contention. However, if copies are scarce, I will be glad to send him mine, providing you allow me to keep it, because he is a most meticulous cuss, and I am sure he will give it careful attention and return it.

With personal regards and trusting that the Summer treats you not too unkindly in the way of hot weather, I am

Sincerely yours

Chairman
