University of Kansas  
Lawrence, Kansas

Dear Doc:

In the December issue of the Athletic Journal Craig Ruby has a series of cuts on the legal and illegal maneuvers in basketball. I think we are all agreed that the biggest criticism that we have of the officiating in our conference is its lack of uniformity, and I am wondering if we took it upon ourselves to provide each of the officials in our conference with this December issue and urge them to study those pictures, if this would not perhaps tend for better officiating.

If you agree with the interpretations as given by Ruby and think the idea worth while, will you take it upon yourselves to give to the men in your territory a copy of this issue?

Yours very truly,

*L. E. Menze*
