INTERCOLLEGIATE ATHLETICS

## #4 Suggestions from Basket Ball Questionnaire

W. H. Browne, University of Nebraska, Lincoln, Nebraska

1. Lessen the importance of the free throw by increasing the value of the field goal.
2. Some personal and technical fouls now listed to be penalized by loss of the ball only--thus lessening the importance of free throwing in a game.
3. Continued study and thought on how to coordinate and make more uniform the work of our officials.
4. I would like to see the experiment tried--raising the basket.
