My dear Dr Allen

Of course we shall be more than pleased to make up a book for Mrs Naismith--and Mrs Dawes, too, if she wishes--when published. We shall keep your letter against the time the book will be ready. My time with the American Sports is practically coincident with the game, as I came with the company right after it started, early in 1893. What strides the game has made.

With best wishes for you all-

Faithfully yours

John Doyle
