Big Six Conference Basketball Coaches:

Iowa State College this year made a move that was deeply appreciated by the University of Kansas, and, I am sure, by other schools. They put their "I" men directly behind the visiting players bench.

This is the first time for a great many years that we were not molested by jibes and taunts by spectators. If this procedure could be followed by other Big Six schools I am sure one of the reasons for difficulty would be removed.

I am proposing to the chairman and the secretary of the Big Six Basketball Coaches Association that we make this a matter of regular business at the next meeting -- maybe after the war.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
