

November 13, 1944.

Mr. George E. Nettels, Vice President,
Pittsburg & Midway Coal Mining Co.,
Pittsburg, Kansas.

Dear George:

You are entirely welcome regarding Bob Schwanzle. I examined him and believe that we will have opportunity to fix him up in good shape. I turned him over to Dean because with my job as president of the Country Club plus my other work I am so badly overburdened I was afraid I would not have time to meet Bob regularly. And too, I felt that Dean could give him diathermy at definite regular intervals. He would of course handle that, and I thought that I would keep a weather eye on Bob to see how he gets along.

From time to time I will make contacts with him and be assured that he is coming along in good shape. He seemed pretty much pleased with his first examination and treatment. I haven't seen him since, but I will endeavor to contact him.

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
