

Rome

6-6-45

Dear Doctor:

I received the rebounder and know what the boys mean when they say it is a shot in the arm. Doc, you can't possible realize how much good that you are doing. It is similar to the Red cross, you can not measure its value in dollars and cents.

We close shop here June 22 and hope to be home soon after. It can't be too soon for me. I have certainly missed my family.

This place, that we are located, is a beautiful place. old Mussolini didn't spare the poor people's money when he built it. Ethan Allen is taking motion pictures of our travels and I am getting a copy. It will show the destruction and the people as they are now. Also some of our activities.

The sun is very hot but it cools off at nite. We have to sleep under cover.

A hello to the gang and I'll be seeing you all soon. I hope

as ever

Dear
