

November 19, 1943

Mr. C. W. Anderson, Regional Director
Federal Works Agency, Region VI
13th Floor - Court House
St. Paul, 2, Minnesota

Dear Mr. Anderson:

On October 6, we mailed to you two resolutions passed by our Board of Education. One was an acceptance for the Nursery School contract, 14-M-47, extending the time to December 31, 1943. The other resolution had to do with the cancellation of the M & O contract, 14-M-26. To date you have not acknowledged receipt of either of the communications. I presume that they met the requirements of your office and were acceptable.

In a previous letter I informed you that the University of Kansas was taking the responsibility for conducting the Nursery School. The authorities at the University are in favor of making the application directly from their office for the continuance of that contract, effective January 1, 1944. This action would meet with the approval of our Board of Education.

Will you please tell us whether this arrangement meets with the approval of your office and if so, how should we proceed?

Very sincerely yours,

Clifford D. Dean
