

December 21, 1942.

Mr. George Nettles,
Pittsburg, Kansas.

Dear George:

Clair Gillin and a boy by the name of Coulter were stars on the Pittsburg High team when they played Lawrence the other night. Gillin scored 31 points, as many as the entire Lawrence team scored.

Woestemeyer officiated the game and told me about the boys. They are both interested in K.U., and Gillin wants to go into medicine. I am wondering if you will contact these two boys, because somebody else might talk them out of it in the meantime. I will appreciate it if you will see the boys.

I am writing this just before leaving for New York. Our team is not going well at all. A few family affairs among the team members - not the most compatible thing in the world, but we will go through with it. Since this is a war year we are expected to take everything in stride.

With best wishes, I am

Sincerely yours,

FCA:AH

Director of Physical Education,
Varsity Basketball Coach.
