July 1, 1942.

Mr. George Nettels,
Pittsburg Coal Mining Co.,
Pittsburg, Kansas.

Dear George:

Jane was home last week-end from Chicago with her husband, Elwood "Hoot" Mons. We had a delightful two days and we wished that you might have been with us to play golf with Bob, Mit, Hoot and I.

Jane mentioned the fact that you called her up and during the conversation she said that you made a statement that for some reason you felt perhaps I was not as close and friendly to you as I used to be. I want to tell you, George, that I have the highest regard and the sincerest friendship for you and will always have it. I regard you as one of my very closest and very best friends. Without enumerating them, I could say that you would be among my first five.

So you see I do have a deep affection for you and will always have. Don't you ever get the idea that anything would change the many pleasant associations and abiding friendship that we have had. And any time if there would ever be a call on me to show my friendship and loyalty to you it would always be forthcoming, and I have felt the same regarding you. You have shown your colors so many times in my behalf that I would permit nothing to come between us. You have my very sincerest friendship and highest respect. Please let nothing confuse you at any time in this regard.

With all good wishes, I am

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

Dear George:

Thank you for your good letter of the 25th instant. I know how you feel, as explained in your letter, and I am sorry that Ralph could not have been himself. George, this boy has been sick for quite some time. I have never thought that he was as well and strong as he should be. At the present time he is in Watkins Memorial Hospital with lobar pneumonia - not a bad case but he is a sick boy, in my opinion.

I thought he did wonderfully well this basketball season, and I am willing to give him every break that I can.

Of course, you know I was not overjoyed with our losing to Frosty, but there still could be a lot of worse things than that. We perhaps will meet him again some day and I will await the time with pleasure.

I do hope to see you at the Kansas Relays, and I assure you that your explanation was entirely satisfactory because you had to leave for St. Louis. And you know when you and I get together it takes more than an hour to get the job done.

With all good wishes to you and yours, I am

Sincerely yours,

Dear Doc:

There really isn't any reason to rehash incidents that are over the dam, but when I left the auditorium Friday night I carried away with me a mixed feeling of chagrin, disappointment and anger. I was certain that the best team had not won and I charged it largely to a guy named Miller. I have the feeling that had this guy been a ghgh class performer in all ways that we would have had a basketball team that would have ranked high among the many high ones that you have had.

From a layman's viewpoint the attitude of this fellow was most reprehensible and it seemed to grow worse as the season progressed. I was so terribly anxious and hopeful that you would win this game and I know how you felt about it because I had a feeling very kindred to yours.

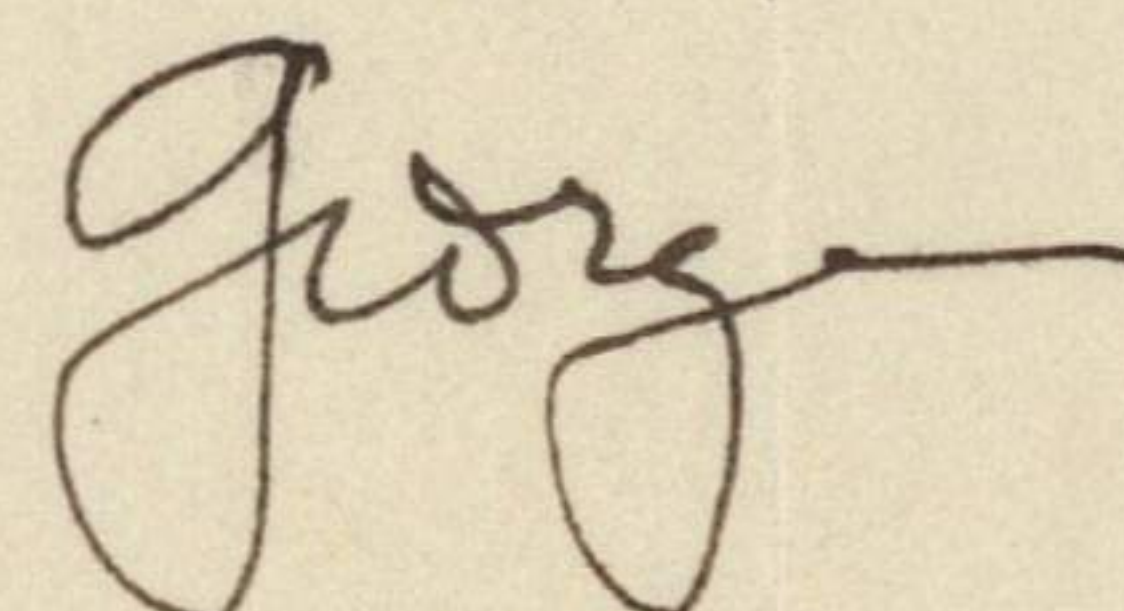

Personally, I would like to shoot this guy Cox with a sawed off shotgun loaded with iron slugs. I didn't show up after the game because I was on extra short time, having to catch a 11:55 train out for St. Louis. I presume had I seen you my expostulations would have been horrendous.

Anyhow, it is all over for another year and I suppose in due time everything will have been forgotten, but I still have a most hostile feeling toward that Miller guy. I think he has done a great deal more harm in University activities than he has good.

I hope to see the Relays and have a chance to visit with you for a few minutes. With warmest personal regards, I am

Dear Dr. Nash:

I am sorry that I have a date to deliver a commendement address at the Marysville High School on May 22nd.

Personally, Bert, I feel that the date is so late, and with examinations coming on that we will not have nearly the turn-out that we would have had before the pressure was on. I can see everywhere people are passing up a lot of the extras to get on the main item of quizzes.

I talked to Gene about Brown's Grove, and there must of necessity be much work done out there to make the place habitable. However, I will be very glad to cooperate with him toward getting a suitable place, but as I stated before, I believe we are getting too far along to have the turn-out that we might have had a couple of weeks ago.

Very sincerely yours,

Director of Physical Education and Recreation,

My dear Mr. Allen:

We are planning a Picnic for all the students in the School of Education for Wednesday, May 22. As you were so very helpful last year, we are asking you to assist again this year. We are asking you and Mr. Gene Billup to head a committee which will have charge of the selection of a place for the Picnic and for getting the equipment for play set up.

Mr. Billup told me that he would see you, and report the conclusions of our general committee meeting of Monday afternoon.

Dear Dr. Nash:

Upon your suggestion we called Miss Margaret Bushong concerning a Marionette Show on the playground some evening next week.

Miss Bushong stated that she was having the children give several performances next week and felt that it might be asking too much of them to give another. She also seemed rather reluctant to attempt to give the show on our platform on the playground because the childrens' voices do not carry well, and a loud speaker is not very satisfactory. It is almost essential that it be dark to give a good performance.

We are not insisting that Miss Bushong give the show, but I wanted you to know that we were glad to follow up your suggestion.

Dear Dr. Allen:

The Bureau of Navigation has ordered me to report for duty at the Naval Air Station, Quonset Point, Rhode Island, June 17th. I had hoped to get back to Kansas before reporting but it appears that I am going to be much too busy to take a week. However, it may be that I will later be transferred to the western coast and if so, I will stop in for a few days.

I suppose that it is somewhat of a relief to you to have this school year almost completed. I know it would be a relief to me. The notices in the paper regarding baseball and track do not indicate much if any activity on the part of directorship of athletics or can that be attributed to the Chancellorship?

Thanks for your swell letter in my behalf to the Commandant of the 3rd Naval District. It covered very beautifully the necessary points. As is customary, either the F. B. The physical examination was passed with a good bit to spare and the doctor in charge, whose name I can't remember, said he knew the late Dr. James Naismith quite well. I'm terribly sorry I can't remember his name because he was quite a gentlemen and to the point.

**AMENDMENT TO THE CONSTITUTION
OF THE
NATIONAL COLLEGIATE ATHLETIC ASSOCIATION**

At the 1941 convention it will be moved that Article III of
the Constitution be revised as follows:

ARTICLE III

*Declaration of Sound Principles and Practices for
Intercollegiate Athletics**

Intercollegiate athletics should be conducted upon sound principles and with a proper understanding of their relationship to the educational functioning of the college or university, in order to constitute an important and useful adjunct of undergraduate life and training. This association believes that the minimum standards specified in this article are essential to the conduct of intercollegiate athletics upon sound principles.

Section 1. Amateurism. (Unchanged)

Section 2. Control of Athletics. (Unchanged)

Section 3. Institutional Responsibility. (Unchanged)

Section 4. Aid for the Athlete.

- a. In the award of student aid an athlete shall neither be favored nor discriminated against.

Note 1—Athletes should not be placed on a different basis from other students in the award of financial aid. In some quarters there has been a feeling that an athlete deserves, ipso facto, financial aid; in others that no greater proportion of athletes should receive such aid than the pro-

* During the two years since Article III was adopted and published, it has been increasingly evident that some informal explanation of the thinking of the Association which led to its adoption should be made available. It has seemed wise, too, in view of many requests for information, to suggest in some cases procedures which might be set up within institutions to carry out the provisions of this article. Therefore, brief explanatory notes have been added following the various sections. The Executive Committee will be glad to receive and consider comments on these notes, and any other suggestions which members of the Association may desire to make.

portion of other members of the undergraduate body. The Association feels that the problem cannot properly be met on any such arbitrary basis. The purpose of all such aid is to enable students to receive the benefits of a complete college education. If a boy's need is established, he should be entitled to aid. On the other hand, if his financial status is such that he or his family can afford to pay for his college education, he should be required to do so. The Association recognizes that this is a problem in all institutional aid but believes that the same investigations and findings in each case should be made with respect to the athlete as with respect to any other undergraduate. Any other institutional point of view the Association believes both undemocratic and unprofessional.

b. Any scholarship or other aid to an athlete shall be awarded only through the regular agency established by the institution for the granting of aid to all students; this agency should give to the recipient a complete written statement of the amount, duration, conditions and terms of the award.

Note 1—Many instances have come to the attention of the Association of individuals, generally not officially connected with the institution, making promises with respect to financial aid to athletes. In many cases this has caused embarrassment to the institution's officials, and to the student who believed that such aid had been granted him officially by the institution. If all institutions adopt the practice of giving a written statement to the entering student, telling him exactly what aid is being given, much of this difficulty may be avoided. The carrying out of this provision will mean that the institution has a specific record of its obligation to the student, and that the student has a definite statement of the institution's obligation to him.

Note 2—The Association recognizes that the source of funds available for financial aid to athletes must be carefully scrutinized and safeguarded to prevent abuses, but it further recognizes that modern institutional accounting practices often involve allocation or inclusion of athletic receipts or contributions from individuals or organizations, for this purpose, within general institutional budgets, which make arbitrary prohibitions on the use of funds from such sources impracticable.

The Association, in determining adherence to the standards specified in this article, may require complete information regarding the administration of student aid in any member institution.

Some of the factors that should be considered in order to secure acceptable safeguards for the institution and the athlete are:

- (1) Control and administration of such aid should be in the hands of the regular agency established by the institution for the granting of aid to all students, and independent of the athletic department of the institution.
- (2) Athletic participation should not be a condition for such aid.
- (3) Awards of financial aid to athletes should be based on the same considerations as to need, etc., as govern such awards to all students.
- (4) Complete information regarding the award of such aid should be readily available to responsible persons and organizations. It has been found to be a desirable practice to publish in the official student aid reports of the institutions the names of the recipients of such aid, with the terms and amounts of such awards.

c. No athlete shall be deprived of scholarship or other aid because of failure to compete in intercollegiate athletics.

Note 1—In some institutions aid has been granted to an athlete and subsequently taken away if, for one reason or another, the recipient fails

to take part in the intercollegiate athletic program. The Association believes that this is unfair to the athlete and is a direct professionalizing influence in intercollegiate sport. A student should be free to make his contribution to athletics just as he is free to make any other extra-curricular contribution. If, however, for any reason he does not enter athletic competition, he still deserves his aid to the extent of the obligation incurred by the institution, provided he meets, in other respects, the requirements set up by the institution.

d. Financial aid extended to an athlete from any source other than (a) persons on whom he may be naturally dependent for support, or (b) the regularly constituted sources of such aid within his institution, shall be approved or disapproved, on the basis of need, by the regular agency established in his institution for the granting of aid to all students.

Note 1—The necessity for a careful and reasonable administration of this paragraph is fully recognized by the Association. There are, of course, many cases in which aid from outside sources is legitimate. Some of the factors that should be taken into consideration in this administration are:

- (1) The length of time the donor has known the recipient of such aid;
- (2) The interest which he has taken in the recipient during this time;
- (3) The understanding by the recipient of just what the aid involves and the reason for which it is given;
- (4) The protection of the recipient from sudden withdrawal of the aid;
- (5) The appropriateness of such aid from the standpoint of the institution.

The Association believes many of the difficulties arising under this paragraph can be solved if administrative officers, recipients and donors have a complete understanding of the problems involved.

e. The compensation of an athlete for employment shall be commensurate with the service rendered.

Note 1—This provision recognizes that an athlete should receive fair compensation for his services and that he should not receive more than fair compensation. The Association has found that, where athletes have jobs for which they do not give value received, a bad psychology is developed all along the line. The person giving the job feels that he is being "used" and is often unwilling to give any employment at all to college students after a bad experience with an athlete. The athlete feels just as definitely, if not as openly, that he is being paid for athletic participation in an indirect and shameful way. The Association makes the suggestion that, in order to carry out the provisions of this paragraph, institutions have jobs held by athletes handled by the same college agency that is responsible for jobs for all students. If this is done, it is possible for the institution to check with the employer to see that all undergraduates holding jobs are working for what they get. With the job set-up handled in this way, an athletic department is freed, on one hand, from the responsibility of a job program and is, on the other hand, completely free from legitimate criticism except as the institution's job program may be criticized.

QUADRENNIAL MEETING OF THE UNITED STATES OF AMERICA SPORTS FEDERATION

The quadrennial meeting of the United States of America Sports Federation, formerly the American Olympic Association, was held in New York City November 19, 1941. The American Football Coaches Association, the N.C.A.A. Track Coaches Association, and the College Physical Education Association will hold their annual meetings in the Hotel Book Cadillac, Detroit, in conjunction with the annual convention of the National Collegiate Athletic Association, December 29, 30 and 31.

Because of crowded conditions prevailing in the Detroit area, all delegates to the 1941 convention of the National Collegiate Athletic Association, December 29-31, are urged to make reservations well in advance of the meetings.
