School of Education.

Dear Dr. Nash:

Upon your suggestion we called Miss Margaret Bushong concerning a Marionette Show on the playground some evening next week.

Miss Bushong stated that she was having the children give several performances next week and felt that it might be asking too much of them to give another. She also seemed rather reluctant to attempt to give the show on our platform on the playground because the childrens' voices do not carry well, and a loud speaker is not very satisfactory. It is almost essential that it be dark to give a good performance.

We are not insisting that Miss Bushong give the show, but I wanted you to know that we were glad to follow up your suggestion.

Cordially yours,
