

July 5, 1940.

Mr. George Nettles,  
Pittsburg Coal & Mining Co.,  
Pittsburg, Kansas.

Dear George:

I was indeed sorry that I missed you last Saturday upon the occasion of your visit to Lawrence and to Topeka. I had counted on seeing you upon your return, and I came back from the Country Club early enough to see you, but apparently you must have gone after we had left to attend the Julia Henry - Jack Nessly wedding.

There are many things that I would be happy indeed to discuss with you, as I always count it a privilege when I have that rare opportunity. I have not forgotten Harry Foreman. I imagine that he is still counting on coming. We will give him the job that we promised him.

I have just learned this morning upon inquiry that Donald Hoag, of Wichita, was named on the Athletic Board in your place. I was sorry not to see you repeat, because it means a lot to the University to have men like you on the Board.

Write me if there is anything I can do at any time, and also write and let me know if and when we can get together for a good old fat-chewing bull session.

Sincerely yours,

Director of Physical Education and Recreation,  
Varsity Basketball Coach.
