Dear Fog:

I hope, that to you, I do not look as dumb as it may seem. I by all means don't want you to think for a minute that I choose K.S. over K.U. That just isn't done, I had confidence in your support before the letter. Besides support I had to have some real means of living after my college days. I was very undetermined as to what I would take besides Phy. Ed. I wanted a trade. I have enrolled in Milling Adm. I found (5 ct.)
