

February 19, 1938.

Mr. George Nettels,  
Pittsburg Midway Coal Co.,  
Pittsburg, Kansas.

Dear George:

George, it was swell of you to send us that wire. It came just at the right time, - just before going into battle, and I told the boys about you and the Kansas-Nebraska football game. I have told them not once, but several times. They remember you, and your name on that wire added a punch that was needed.

It was a great battle, George, and the kids just wouldn't quit. The Sooners had them licked, but the kids didn't know it and finally they broke the Sooners' back in the last minute of play.

With deep appreciation I am

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
