

COMMITTEE ON RECOMMENDATION OF TEACHERS

The State University of Iowa

Iowa City, Iowa

Estimate of

..... Laurence E. Morehouse .....

Mr. Morehouse has worked in my Department this past year as an assistant instructor. I feel that Mr. Morehouse is, and should be, one of our very highest type of instructors. His educational background is of the very best, in Physiology as well as in Physical Education.

His work is very exacting. He gives minute and careful detailed attention to daily lesson plans and is interested in the growth of the student in his classes. He has a pleasant personality and I would not hesitate in recommending him for any first-class high school or college. He is especially adapted to teaching swimming in Physical Education and has excellent training in administration and organization of a physical education program at any level of the teaching program. His character is excellent and has no bad habits to my knowledge.
