

COMMITTEE ON RECOMMENDATION OF TEACHERS

The State University of Iowa

Iowa City, Iowa

Estimate of

.....
Laurence E. Morehouse

Mr. Morehouse graduated from Springfield College and has taken his work for the doctor's degree here. During the three years he has spent on our campus he has developed and matured remarkably. He is a good student, a hard worker, and has shown more originality and initiative in lines of investigation and of devising better teaching methods than any student I remember having had on this campus. He is excellently prepared in physical education, health education, hygiene, and physiology. He gives promise of maturing still further within the next few years. He is cooperative, interested, and would make, I think, an excellent teacher. I think Mr. Morehouse would be an excellent addition to the staff of any institution conducting teacher training, especially where graduate work is being offered. I think that as he gains experience and maturity, he gives promise of being one of the outstanding men in the profession.
