

March 12, 1946

Mr. Dell Davidson  
1112 Illinois  
Lawrence, Kansas

Dear Mr. Davidson:

During the rain and wind storm this morning, Dr. Allen noticed about 6 places on the roof of the building directly behind the boys' gymnasium that are coming loose. There are four places on one end and two on the other end.

He would like for you to have someone--he doesn't want you to get up on the roof yourself--get up on the roof and nail those places down at your earliest convenience.

If this letter is not clear to you, please stop by the office and I will show you what I mean.

Sincerely,

MF

Secretary to Dr. Allen
