

October 7, 1938.

Mr. Earl Falkenstien,  
Athletic Office.

Dear Earl:

I wonder if you would have Mr. Davidson get all the tennis courts in good shape just as soon as possible. When does practice begin on the varsity courts? Until that practice begins we shall be glad to take care of the expense of keeping the varsity courts in good condition, but of course after practice begins we will not be able to do that.

We now have a new supply of tennis nets, and will appreciate it if Mr. Davidson will have all the courts put in good shape.

Miss Hoover has called my attention to the fact that the women's hockey field needs seed. I believe Mr. Davidson can do that this fall. There are paths, or furrows worn in the field in several places, and these should be filled in. I am sure that Mr. Davidson can do this.

Referring again to the varsity tennis courts - Doris Stockwell was in my office yesterday and asked that one of these courts be fixed in good shape so that she could play Saturday.

Very sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
