Dear Mr. Allen,

I stank I told you I still am halding the Rekabilitation fragram as my goal in the Navy. I have been told that the quickest possible way to get into it is by applying for Officers Training as soon as my 6 manthe are up here That time is growing migh and my officer has suggested that I get all of the necessary material together & have it ready at least by aug. 1. so I'm asking you to write another letter of recommend. ation for me and this time it is to be in triplicate Copy. Maybe you still have the one on file that you wrote for me last dept. to the Office of haval Officer Pracurement in H.C. & Can just send 3 capies af it.

I have never heen sarry that my application reached wash. D.C. too late last fall for me to get

into the last Class of Officers from Curlean life; for life of an Enlisted WAVE has certainly given

me å view of Navy life that a lat afour Officers should have had.

I am enjaging my work here; but I still have ego enough to think that those of we who have trained & worked in Physical Education Lave something to affer in the Rehabilitation frequen that many others do not have. Our war in Emispe is over as far as Uncenditional Surrender is concerned and we kape the Japanese war won't last too much langer, but it wan't be over then. Our army + Many Haysitale have a long job ahead of I'm haping that before long, Itte ke working in one. Of course, one never knows just what the havy will do; but I'm just the one who will key an trying toward my brak. I reëd the Kelannde & your note bast week. Words Cen't express how much I enjoyed them as for the broken foot, it feels fine but I still am wearing an orthepedie (Converted & I) shoe de am to go back neet week for X-Kaye again & & hope they find the foot in All Condition. I'm getting eager to play tennie, saftball, etc. again Tie time to go to work again so I'll sun slang. Thanking you again for all you've done for me as trusting that I shall receive the litters S. Dear George:

Pardon my delay in answering your good letter of the 16th instant. I had expected to answer it the next day but was tied up with some of my many duties and failed to do it.

Yes, I have heard of you quite a bit. Henry Shenk, our football coach spoke to me saying professor Parker had spoken to him. Then I had the talk with professor Parker in Olathe. I assure you that we will happy indeed to have you dome to the University of Kansas and you can rest assured of working and it will pay \$.50 an hour. We can give you as much work as you actually need, but I would advise against trying to do any more work than is absolutely necessary for you to get your education. So many boys work longer hours than they should and many times their academic work suffers.

I would be glad to come down and see you real soon but I am teaching classes here at the University and being district Governor of Rotary, President of Country Club, president of the Civic Action Council and Councilman of the 1st ward together with a lot of other activities, I keep extremely busy.

Rotary, so it might be some little time before I could get down. So far as I am concerned let us consider that you are planning on coming to the University and in the meantime we can plan on seeing each other at the most favorable opportunity. Gasoline being what it is at the present time I have been witholding trips unless I could kill two birds with one stone. I might be on an official visit to one of the Rotary clubs and in that event I could stop and see you and we could go over all the details that you would wish to discuss.

I am going to turn your letter to our Mr. E. C. Quigley, director of athletics who travels a great deal and I am sure that in within a weeks time he will be able to drop by and visit with you. I am sure that you made a very wise choice and we are happy indeed to help you in every possible way, and I am glad to repeat, your education domes first and glad to see you place it there.

Sincerely yours,

Dear Dr. allen,

I certainly thank you for writing a letter for me. Ital letter alone should get me into the Many. I haven't heard what the verdict will be I should hear within a few days. I suppose it all depende on what human the admiral in Washington was in when my papers got to him.

about the keys in service. Mast of them were in school when I was there. Reading their letters when I was about T.P. I think my feelings were well expressed in other letters written about him. I wonder if I can't be put an the regular mailing list if I get into the WAVES. I would certainly appreciate it. anyway, I'll certainly let you know my address as soon as I know. I'll try to stop by for a visit before I leave this area.

Sincerely yours

Ramie Bunis Sp(A) 3/c Ships Co. Div. 5 Mil. Tr. Inst. Batt. 9 San Bruno, California

Dear Ramie:

You were wight, that was Bob Allen at the California golf club. Your eyes are awfully good if you can pick a native Kansas out at that distance, or do they emanate a fragrant odor that you can tell that species from that distance.

Bob finished his interneship at Bell July 1st. Six days from the time he signed the War Department inquiring of Navy Enlistment, he had been sworn in, bought his uniforms, made his will, and was on a Union Pacific pullman headed for Frisco. Is that speed or is that just terrific speed. Bob was staying at my daughters, Mrs. Mary P. Hamilton, 860 Center Drive, Palo Alto, California.

I know he would be happy to hear from you and tickled to death to see you. He may have been shipped West before this letter arrives.

Thanks for your kind words regarding the Rebounds. In this morning's mail I received a letter from Bill Replogle and he said he had seen Howard Engleman at Oak Knoll, and it was fine to see and to know he is recovering in splendid shape.

We will be tickled to death to have you home when this dammable fuss is over, but we have got to slap the Nips flat before they will realize that they are completely whipped.

Lots of luck to you, Ramie

Sincerely yours,
