Dear Dr. Allen:

Since my last letter to you and Mrs. Allen, I have been stationed here at the Iowa Pre-Flight School. Words cannot express my appreciation for your recommendation. I sincerely believe it bore great weight.

While playing baseball here, I came in contact with a cadet by the name of Brennan, a graduate of Notre Dame. After talking with him I learned that he knew Jane — small world after all, eh! Give our regards when you write her.

Seeing our football schedule I notice that we play you September 19th. Betty and I are planning to attend. We will make every effort to see you all.

Wishing you all well,

Elwood
