Kansas City, Kansas.

Dear Mrs. Peete:

Thanks a million for those Small Blacks. They are my first aid when it comes to gustatory enjoyment. I love to put one of them where many fellows put Piper Heidsick, and just let it slowly dissolve. However, instead of forcibly ejecting the sputaneum saliva I just swallow it with added pleasure.

Again I appreciate your thoughtfulness.

Give my kindest regards to your wife's husband, and his and her offspring.

Very sincerely yours,
