

November 30, 1938.

Mr. Ralph A. Piper,  
Department of Physical Education,  
University of Minnesota,  
Minneapolis, Minn.

My dear Mr. Piper:

I have your letter of November 28 and I feel that your paper on the status of night football is primarily research and should go in our section.

If you knew how slowly these papers are coming in you would be able to see the wisdom of my attitude. I hope you will allow me to plan on using your paper. Things are going awfully slowly at the present time.

Very truly yours,

Chairman, Research Section,  
Central District.
