Dr. F. L. Allen
Dept. of Physical Education
University of Kansas

Dear Dr. Allen,

I am very interested in attending the University of Kansas, beginning this spring semester of 1939. As I have played lots of basketball, most of my school connections have been with coaches and athletic directors; therefore, I felt that I should like to talk to you about the whole subject.

At present, I am in my first semester of the sophomore year at the Kansas City Junior College, and in very good standing.
